## REPORT OF THE PRESIDENT

*To the Board of Trustees and the Board  
of Supervisors.*

LADIES AND GENTLEMEN:

The change in the financial year of the Hospital, which was adopted on December 1st, making it conform to the calendar year, affects the statements of receipts and expenses submitted by the Treasurer and also the figures for the work done in the Dispensary and Hospital. These latter figures, given in detail in the reports of the Surgeon-in-Chief and the Superintendent, continue to show a large volume of work done, especially in the Dispensary, where the average number of patients treated increased from 1,090 per month to 1,134 per month. The average number of patients in the Hospital and visited by nurses in their homes showed a slight decrease.

The report of the Surgeon-in-Chief shows how seriously our staff and nurses were depleted by the call of the Army medical service, and the fact that the work of the institution was not only maintained, but in some respects enlarged, is witness to the conscientious and loyal work of those who remained and who were called upon to substitute for those required by the Army.

Among the various ways in which our institution aided the Government, not the least important were the facilities afforded for the training of Reconstruction Aides. Classes conducted by Teachers College received practical instruction and training at the Hospital; a total of sixty-one having taken the course prescribed.

In the President's report of last year, it was stated that if our income could be increased by \$25,000 annually, we might feel reasonably confident that our annual expenses would be met and we would be relieved from facing a deficit. While this goal has not yet been reached, nevertheless a study of the Treasurer's statements will show that our financial condition is improved, and this in spite of increased costs of food, wages

and fuel. The work of the Appeals Committee shows each year an increasing number of contributors and larger total contributions. The deficit at December 31st was \$17,719.65 (last year it was \$25,118.93) which has been met by special subscriptions from the Board of Trustees and Board of Supervisors. It is to be hoped that we may receive such added support from a generous public, that the managers of the Hospital who now give so largely of their time and interest, may be relieved of the financial burden of making up this annual deficit.

The buildings at 126 East 59th Street and 131 East 58th Street, formerly occupied by the Hospital, have been occupied and used this past year by the New York Cooking School, which has been conducting a series of classes among the enlisted men of the Army and Navy. While we are very glad to have the buildings used for this interesting and useful work, the need of disposing of this property or converting it into an income producer must not be lost sight of. With a renewal of real estate activity in New York City and the completion of the Lexington Avenue subway, it is hoped that the Trustees may be able to dispose of the property at an advantageous figure.

Mention should be made of the Influenza epidemic, for although there were few cases and no deaths among the patients, the medical and nursing departments were so depleted that it was necessary to close down two wards for a few weeks. This, of course, affected the number of patients treated and accounts for the slightly decreased daily average census.

---

### COUNTRY BRANCH

Thanks to the continued generosity of Miss Watson, who has made up the difference between the cost of operating the Country Branch and the receipts from its endowment funds, the Hospital has been run to capacity this past year. The value of this work in restoring to useful lives many who otherwise must look forward to dependency, cannot be underestimated.

The Country Branch should be visited to enable one to appreciate fully the volume and the value of the work conducted there under the able guidance of Mrs. Bridgman and the members of the staff.

The recurrence of the influenza epidemic in the late fall of 1918 affected the children in the Hospital severely, 75% of them falling victims of the disease, with one death.

In a year of unusual difficulty of operation, with many departments handicapped by lack of helpers, I wish to express on behalf of the Trustees their appreciation of the earnest and willing spirit shown by the doctors, the nurses and the administrative staff, many of whom assumed double burdens in order that the standard and character of the work should be maintained.

Respectfully submitted,

ROBT. S. BREWSTER,  
President.

January, 1919.

## REPORT OF THE BOARD OF SUPERVISORS

December 10th, 1918.

*To the Trustees of the New York Orthopaedic Dispensary and Hospital,*

420 East 59th Street, New York City.

GENTLEMEN:

We have the honor to present to you the Report of the Board of Supervisors.

The loyalty of our friends has enabled us to carry on our work during this year of exceptional trial as successfully as we have done in the past. To them we owe a debt of warmest gratitude and deep appreciation of their generosity and interest, which spurs us to fresh efforts for the welfare of our beloved institution, and brings before us more clearly, if that were possible, what a precious trust is placed in our hands.

First of all we turn to thank our Auxiliary Societies, according to our custom, following it again with a deep sense of gratitude for all we owe to them, for the exertions they have made to keep their work at the high level which it had attained. None of their especial activities have been allowed to lapse either for lack of funds or personal service.

The Orthopaedic Guild took entire care of the three Girls' Wards and supported three Free Beds.

The Orthopaedic Hospital Sewing Society, which provides all the linen for the Hospital, except for the above mentioned Wards, kept the linen closets replenished and also supported a Free Bed.

The Junior Guild supported a Free Bed, gave \$100.00 to the Endowment Fund, and \$130.00 to the Vegetable, Fruit and Ice Cream Fund. The reports of these Societies which will be found in our Year Book, give more detailed and interesting accounts of their activities.

The Visiting Nurses, whose value to the Institution cannot be over estimated, carrying surgical care into the patients' homes, we owe, as in the past, to the generosity of individual contributors. Eleven have been employed in this service, one each by Mrs. Whitelaw Reid, Mrs. A. Murray Young, Mrs. C. B. Alexander, Mrs. W. Douglas Sloane, Mrs. L. P. Morton, Mrs. Frederic Vanderbilt and five from the fund given the Surgeon-in-Chief for this purpose. More are greatly needed, may we not hope they will be given to us?

The massage treatment, another most important adjunct to the Surgeon's Work has again been given through the kindness of Miss Caroline White.

The school is one of our most interesting works. Each year we are happy to report complete success in the results obtained by the instruction the patients receive. They take their place on returning to school without the handicap their absence would otherwise be, and many times it has happened they have gone ahead of their grade. It is an expense we therefore feel justified in incurring but for which we must beg help.

Our Special Funds are also subjects which we are anxious to bring to the attention and consideration of our friends. The Fruit and Ice Cream Fund enables us to give the patients these extra delicacies which add so much to their diet, and the Vegetable Fund is becoming increasingly valuable. In these days of almost prohibitive prices, gifts of barrels of potatoes and apples, and during the summer, of fresh vegetables, are more than appreciated, and we shall be very grateful to anyone who will give them to us.

Christmas was as happy and gay as ever for our patients. The Hospital was beautifully decorated with trees and holly through the kindness of Mrs. Brewster, Mrs. Dickey and Mrs. Young.

Mrs. Sloane visited the wards bringing presents for each patient and nurse. On Christmas Day, Mrs. Brewster and Mrs. Young gave each patient a present, and a toy to one hundred Dispensary patients, and Mrs. Murray gave ice cream and cake for the Christmas Dinner. The Orthopaedic Guild and the Junior Guild provided stockings for their wards,

and the Social Service Committee gave stockings to the boys and books for the men. Mrs. Douglas Robinson, Mrs. Dickey, Mrs. Talmage and Miss Hamilton gave presents to the maids, and through donations from various friends forty-eight families of Dispensary patients were provided with Christmas dinners, and so many other donations of toys and candy were received that we were able to give presents to two hundred more children. We regret so much it is not possible to mention all who gave and especially are sorry that they should not have seen the joy of those who received.

In presenting our annual appeal for funds for the support of our Institution, we will ask our friends to turn forward a few pages in our Year Book and read of fourteen thousand patients being treated here during the past year, and to pause for a moment and think what that means. Fourteen thousand crippled and suffering have been relieved, helped, set on the road to recovery, some cured, able to go out and become self-supporting, wage earning men and women, their lives dignified by their work instead of being objects of pity if not of charity. And of the number of army surgeons among us studying Orthopaedic treatment in order to care for our disabled soldiers according to the latest methods, of nurses being trained for the same special service. Should an institution with such a record on which to base its claim for support have need to fear for the future?

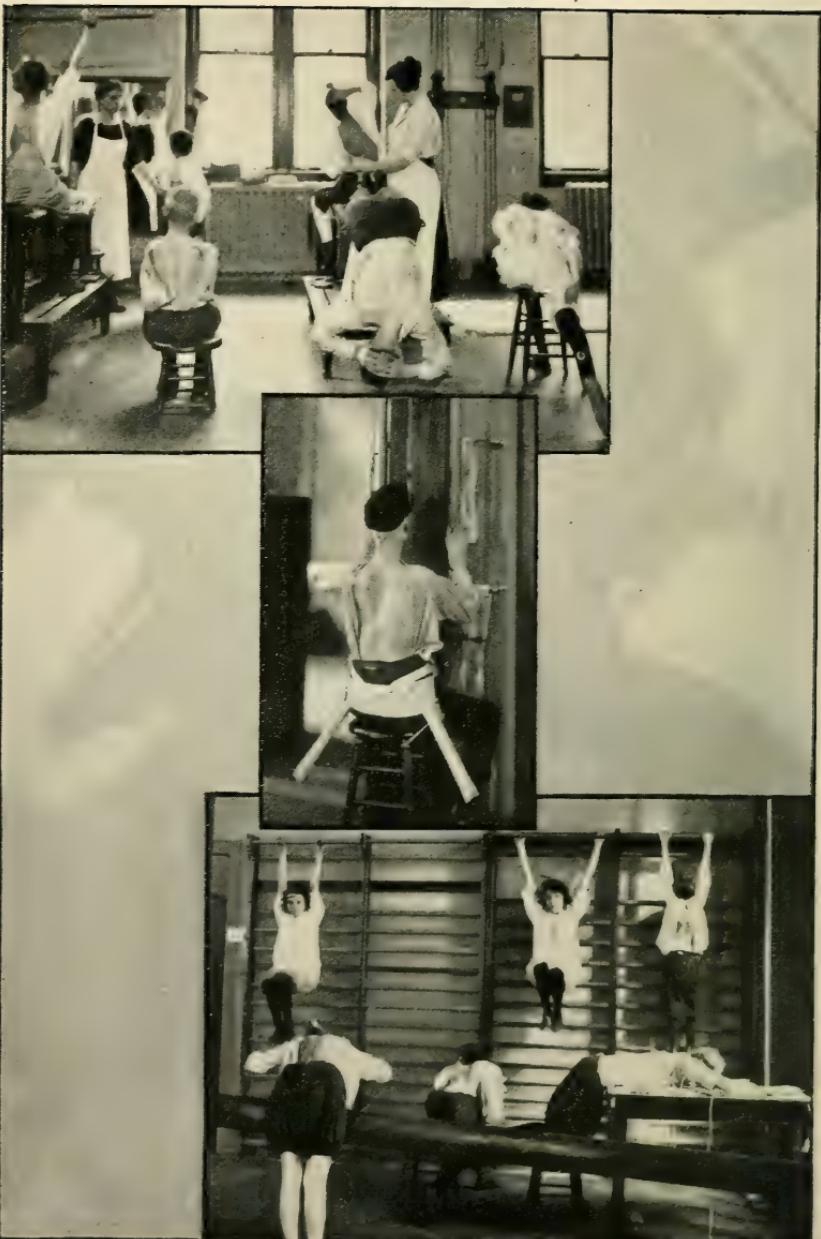

Respectfully submitted,

(Signed) ELIZABETH STEWART HAMILTON,

*Secretary Board of Supervisors.*

CORRECTIVE GYMNASTICS

## REPORT OF THE SUPERINTENDENT\*

December 11, 1918.

*To the Trustees of the New York Orthopaedic Dispensary and Hospital.*

GENTLEMEN:

The expenses of the Hospital for the year ending September 30, 1918, were approximately \$7,000 more than the year previous, and less than \$100 within the estimated budget. The income, however, was \$20,000 more than a year ago, so that the resulting deficit was \$12,000 instead of \$25,000, as a year ago. The increased income was \$3,000 more from interest on investments, \$8,000 more from patients, \$12,000 more from contributions and \$3,000 from the City, less \$6,000 reduction in special funds.

The running expenses of the Hospital Department were \$86,881, an increase of \$8,000 or 10% over the year previous. The cost per patient day was \$2.64 against \$2.35 last year. Half of this increase was due to the item of fuel, the unprecedented cold winter and the low grade and high price of coal resulting in an increase of 50% in this item. That the remaining increase of 5% was no more is due primarily to the splendid spirit of co-operation in economy growing out of the war and manifest in every department. Economy in the use of supplies of every kind nearly offset the big increase in prices. As for labor, a shortage in most departments helped to offset the necessary wage advances; but as a matter of fact, the wage increase did not reach the hospitals in force until summer. The difference will be felt much more during the coming year.

The running expenses of the Dispensary Department were

---

\*Note: This report was based on the 12 months ending September 30, 1918. It is not changed to conform to the Treasurer's and other reports covering 15 months, because it seems well to have a permanent record of this 12-month period.

\$60,919, approximately the same as a year ago. Fewer visits to the Dispensary, however, caused the cost per treatment to increase from 64 cents per visit to 69 cents.

The fact that there were 2,000 less visits to the Dispensary is explained by the severe cold during the three winter months. Omitting these months from both years, 1918 shows an increase of 1,600 visits over 1917.

The decrease in visits to homes by the nurses from 35,000 to 27,000 is due to the fact that we operated only 11 nurses as against 15 the year before, four of those especially provided for the infantile paralysis epidemic having been discontinued.

The past year has been one of unusual circumstances. We have lost to war service men and women not only from the ranks of every department but from the heads of several. The result was work everywhere a little less well done, but just as near to standard as human pluck and endurance could attain. I want here to express appreciation of the cheerful, devoted service of the staff and workers throughout the Hospital during this time when all the glory seemed to follow those in military service.

One advantage which has accrued to the Hospital along with the disadvantages of war has been the work performed by volunteers. We have used them in the Dispensary, in the wards, in the operating room, and in the Country Branch, and have found their eagerness supplemented by intelligence. They have filled urgent needs, and in some cases, better than their professional antecedents.

Another advantage which the war has brought the Hospital comes from the impulse to generosity which has been so generally stimulated. Just as the United States entered the war, the Trustees inaugurated a Committee on Appeals and engaged a secretary to increase the subscribers to the Hospital. For several years previous, there had been about 500 contributors who together subscribed \$11,000. During the 12 months ending September 30, 1918, this was increased to 1,886 contributors who gave \$30,000. This is a net gain of nearly 1,400 contributors.

Another important step which the Trustees took during the year was the application for a subsidy from the City,

similar to that granted to many other private hospitals, for the care of City patients unable to pay board. This application was granted, beginning January 1, 1918, since when we have been receiving City Aid at the rate of about \$5,000 per year. This is paid on the basis of days care, given to children under sixteen living in New York City outside the Borough of Brooklyn, where the City thinks it has provision enough for its patients. The rate paid is only 66 cents per day, orthopaedic hospitals being classed with children's homes—due to the old-time custom of long-term custodial care as distinguished from modern surgical treatment. This rate has been increased to 75 cents per day for the coming year, and an effort has already been made, and is to be reinforced, to obtain for this Hospital the same rate paid to the general hospital, \$1.75, or at least something nearer the \$2.64 per day which it actually costs us.

The question of whether this Hospital should not undertake for its patients something of what has been so admirably worked out for war cripples in the way of occupational therapy and vocational guidance has been demanding consideration. New undertakings, however, have had to wait more certain financial conditions. In the meantime, both methods and personnel are being developed by war agencies, and these may very easily be transferred to the interest of civilian cripples later on. Indeed, we have already had the benefit of groups of "occupational therapy aides" coming here for practice teaching in our wards; and the Red Cross Institute for Crippled and Disabled Men has asked us to notify them of any patients of ours whose injury or operation is of such a nature as would make it probable that the man could not resume his occupation without vocational guidance or training. This is a good beginning, but I hope some day funds will be forthcoming to have our own agent, properly trained and experienced in educational and industrial adjustments, working quietly in our wards and dispensary, to discover the needs and possibilities of both adult and youthful cripples. Occupational instruction in the wards could then contribute both to the health of patients and to the finding of their special aptitudes. Cooperation with vocational classes and schools,

and also with the Red Cross Institute, and other such agencies, could then bring about the desired adjustment to life and industry.

---

#### COUNTRY BRANCH.

The expenses of the Country Branch for the past year exceeded the income by \$8,392. Such a deficit had been provided for, however, by a special gift from Miss Watson. Indeed, a much larger deficit was provided for, as we expected to care for 20 more children than the year previous, and allowed for a 12½% increase in expenses to cover this and increased costs all along the line. Instead we averaged seven children more, and spent \$2,800 less than the year before, so that the cost per patient day was reduced from \$1.80 to \$1.71, the lowest cost since 1912. This was made possible by rigid economy and close supervision in every department, loyally supported by the cooperation of the workers throughout the Hospital.

It is an inspiration to the workers to know that the economy in which they have cooperated makes possible the admission of still more children, and encourages the donor to provide for our needs, knowing that nothing is wasted.

Miss Watson has again offered to make good the deficit for the current year. The balance from last year will keep such a deficit within \$6,700, and every effort will be made to encroach as little as possible upon the amount underwritten.

I cannot speak too highly of the spirit of the staff throughout this trying year. The devotion of the nurses and teachers to these difficult children is a source of constant wonder and delight. The nurses in particular, who haven't the inspiration of active sick nursing and have to plod through uninteresting and unlovely duties, while held to patient, skillful brace work, are greatly to be praised for their loyal care. It is fortunate for these temporarily motherless children that foster mothers of such intelligence and devotion can be found, for upon their patient care depends the treatment and results which the surgeons can only plan.

A special word of appreciation is due our old friend and

consulting physician, Dr. Schmid, who, during the shortage of resident surgeons, has given us daily visits for so many months, and brought experienced advice and cheer to our patients.

Other friends have contributed chiefly to the children's entertainment, making this an unusual year for such. I would mention especially the Central Taxi Co., which has repeatedly furnished free transportation, the Westchester Street Railway Co., which has given special cars for transportation to beach and movies; and the Strand Theatre, which has given moving picture shows both in the Theatre and in the hospital to the huge delight of our isolated children.

Not only entertainment but instruction has been given by two young women volunteers, who for several years now have come every week to teach piano and group singing to the children.

\* \* \* \* \*

On behalf of the staffs of both the White Plains and New York hospitals, I would express appreciation of the cooperation and support given us by all our friends, and in particular by the Committees and Auxiliary Societies, whose interest has remained unflagging throughout these diverting months of war.

I would mention further the special cooperation given us by the Committee on the After Care of Infantile Paralysis Cases, which has contributed \$3,500 to our work the past year, and by the Country Home for Crippled Children, Westfield, N. J.; The Burke Foundation for Convalescents; Association for the Aid of Crippled Children; House of the Holy Comforter; Rhinelander School; National Plant, Flower and Fruit Guild, and the Playground and Recreation Association of America.

Respectfully submitted,

(Signed) JOHN R. HOWARD, JR.,

*Superintendent.*

## REPORT OF THE SURGEON-IN-CHIEF

*To the Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

The Hospital year has always been from October 1st to September 30th, and after this report it is to be changed to the calendar year, January 1st to December 31st. Therefore, to make this possible, this report must cover a period of fifteen months, October 1st, 1917, to December 31st, 1918, and all the statistics and tables will be based upon this period of time.

During this time, 17,011 patients were treated in the Dispensary; of this number 7,381 were new patients applying for treatment the first time, and the remainder were those continued under treatment from last year.

Table No 1 gives the classification of these patients and shows that there were 1,794 cases of joint tuberculosis, 6,005 cases of deformities of the feet, 1,065 cases of non-tuberculous deformities of the spine, 711 cases of bow-legs and knock-knees, 2,895 cases of paralytic deformities, and the remainder were suffering from a great variety of chronic deforming diseases.

Table No. 2 shows the result of treatment. 1,161 were discharged cured, 3,791 discharged relieved, making a total of 4,952 individuals restored to conditions of health, where they no longer needed treatment. Ten were discharged incurable, 2 for neglect, 14 died, 2,688 had no treatment after their first visit and were discharged, and 9,345 were continued under treatment at the end of the fifteen months.

Table No. 3 shows the detail of work in the treatment of these cases in so far as such detail may be tabulated. The total number of visits made by patients to the Dispensary was 67,984, and total number of visits made to patients at their homes by surgeons was 816, and the visiting nurses made 32,028 visits to 7,898 patients at their homes, which makes a grand total of visits of 108,209.

Table No. 4 is a detailed report of the work done in the manufacture of braces, and shows the number of new instruments made was 5,762, and the number repaired 9,907. The amount charged for apparatus was \$18,234.82, and the amount collected for braces from patients \$16,817.77. This contribution from patients is obviously a very material aid to the expensive work of the manufacture of braces. It must always be remembered that whether the patient can pay for a brace or not, it is always supplied.

City Hospital:—The number of patients in the City Hospital on October 1st, 1917, was 83, and the number received during the fifteen months was 875, the number discharged 868, 11 died, and the remainder, 79, continued under treatment in the wards January 1st, 1919. The average number of patients per day in the wards was 87. The average duration of stay of each patient was 42 days. The number of days of free care was 7,932, the number partially paid for by the patients was 23,243, and the number paid for by the City 8,847. See Table No. 5.

The number of patients operated upon was 746, and the number of operations performed was 1,083. See Table No. 6.

Country Branch:—The number of patients in the Hospital on October 1st, 1917, was 128, 89 were admitted during the fifteen months, 95 discharged cured, 4 died, leaving 118 on January 1st, 1919. The number of days of free care was 42,183 and the number of days care partially paid for by the patients was 13,541.

In reviewing this year's work in the institution, it is amazing to me that we have done the large volume of work as the facts show, because of such serious inroads upon our staff made by the Army; as twelve of our surgeons, five of our workers in the Department of Corrective Gymnastics, and six of our best nurses have gone into the U. S. Medical Service. In spite of this fact, we have done almost as much work as we did last year, in fact we have treated a larger number of patients. It seems to me that we have done as well as we could under the circumstances.

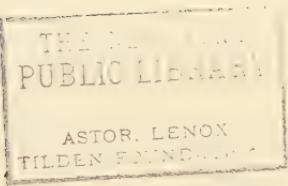

In conjunction with the work of caring for the routine patients, we have given training to 58 Medical Officers of the United States Army—13 of whom were residents over periods

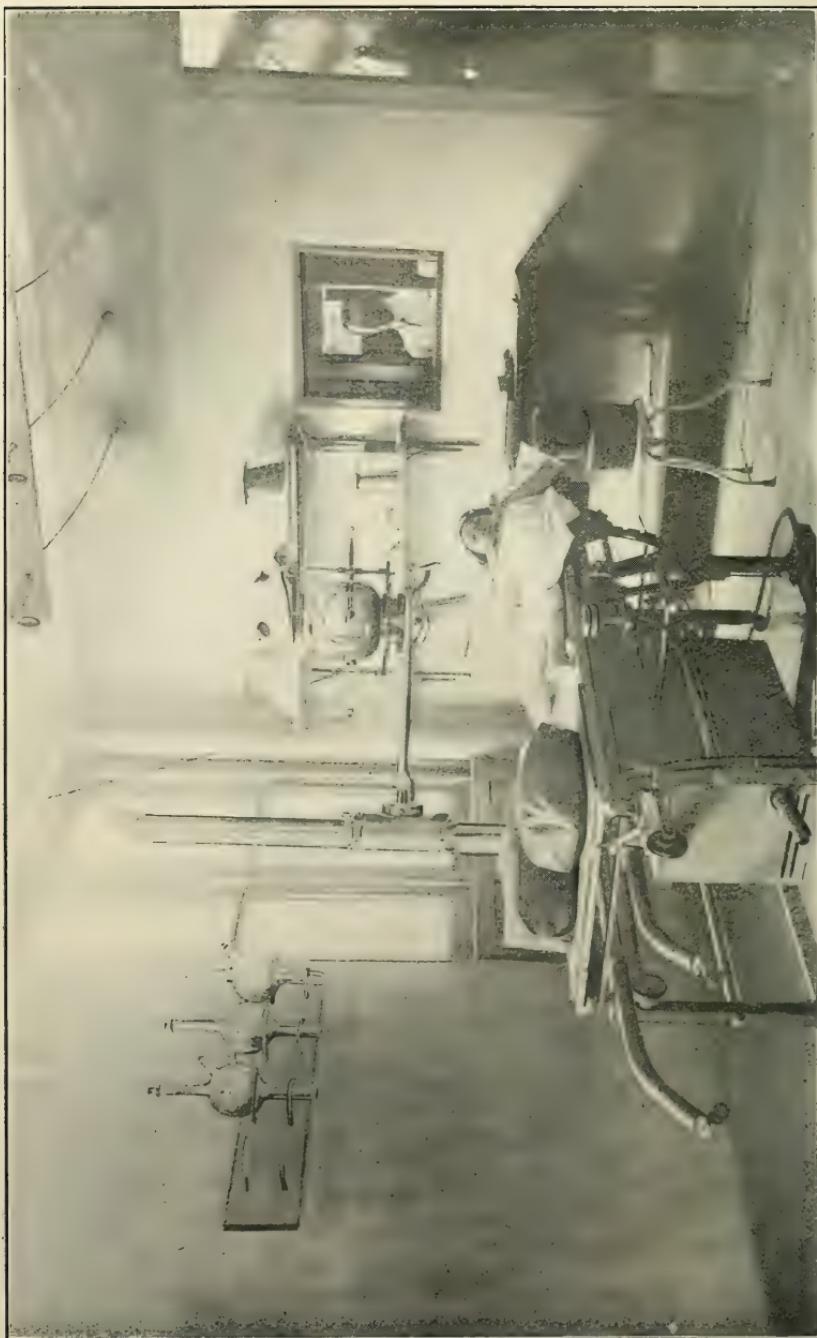

of time from two to six weeks—during the year, and 61 Reconstruction Aides. We have also sent one man from our Brace Shop to Washington, where he has organized a Brace Shop in the Walter Reed Hospital.

Respectfully submitted,

RUSSELL A. HIBBS, M. D.,

*Surgeon-in-Chief.*

## REPORT OF THE COUNTRY BRANCH COMMITTEE.

*To the Trustees of the New York Orthopaedic Dispensary and Hospital.*

GENTLEMEN :

The Country Branch has 113 children and, like all the hospitals, has suffered from a lack of nurses, but the teachers have shown a most unusual effort to relieve the situation by taking care of the children, when not occupied by their school duties. It gives me much pleasure to testify to the efforts of all concerned in the management of the Country Branch to keep down the expenses. For this year we commence without any debt, and owing to the good fortune in investments made by the Trustees, not only out of debt, but with a surplus.

It is with great pleasure that I tender my thanks to the Strand Theatre for their invitation to the children to see Charlie Chaplin, and to the street car system for two cars to convey the children to and from the Strand.

Respectfully submitted,

EMILY A. WATSON,

*Chairman.*

## **ORTHOPAEDIC GUILD REPORT.**

The annual report of the Guild is very encouraging. We regret the loss of three members during the past year from resignations and death, but we are glad to announce that several new members have been received. At present we are supporting twenty (20) beds, as has been our custom, and we have also paid for three beds. We have had a large requisition from the Hospital for the Guild of linen and clothing, and in order to meet the demand have made a special appeal to our members, who have responded very quickly and generously. We have also received very generous contributions at Easter and Christmas.

Respectfully submitted,

FLORENCE B. FLEMING,

*Secretary.*

## TWENTY-THIRD ANNUAL REPORT OF THE ORTHO- PAEDIC HOSPITAL SEWING SOCIETY.

The annual report of the Orthopaedic Hospital Sewing Society is very satisfactory.

Our working committee, Mrs. Samuel Clark, chairman, reports the following:

January 1, 1918, number of articles on hand.....	1,886
Added during the year .....	2,038
	_____
	3,924
Taken out for use .....	2,457
	_____
Leaving in the linen closet, January 1, 1919.....	1,467

We are greatly indebted to Mrs. Clark for her faithfulness in so successfully handling this department.

We take pleasure in reporting one new member, Mrs. Howard Carroll, for the year 1918.

Respectfully submitted,

KATHERINE M. LUCE,

*Secretary.*

## **SECRETARY'S REPORT—JUNIOR GUILD.**

During the past year we have continued to support a bed in the Girls' Ward and have provided all garments for the three wards on the sixth floor.

Donations were given as usual to the endowment, ice cream, fruit and potato funds.

By sending out appeals for \$1 we raised nearly \$1,000, and so hope to increase our work this year.

Respectfully submitted,

URHLING H. BENEDICT,

Secretary.

## **MISCELLANEOUS DONATIONS.**

NOVEMBER, 1917.

3 dozen Oranges ..... Guild

DECEMBER, 1917.

32 Christmas Stockings ..... Guild

# NEW YORK ORTHOPÆDIC DISPENSARY AND HOSPITAL

No. 420 EAST 59TH STREET.

EAST OF FIRST AVENUE.

---

*Open from 1 to 3 P. M. Daily (Sundays and Legal Holidays Excepted) for the Reception and Treatment of Patients.*

---

OBJECTS OF THE INSTITUTION.—“To furnish treatment to the poor with special reference to the Diseases and Deformities of the Spine and the Hip Joints and other of the more serious diseases of the bones and joints requiring surgical and mechanical treatment, and for giving instruction in the same.” All cases of deformity, besides those mentioned, including Club Foot, Lateral Curvature of the Spine, Infantile Paralysis, Bow-Legs, etc., are received and treated.

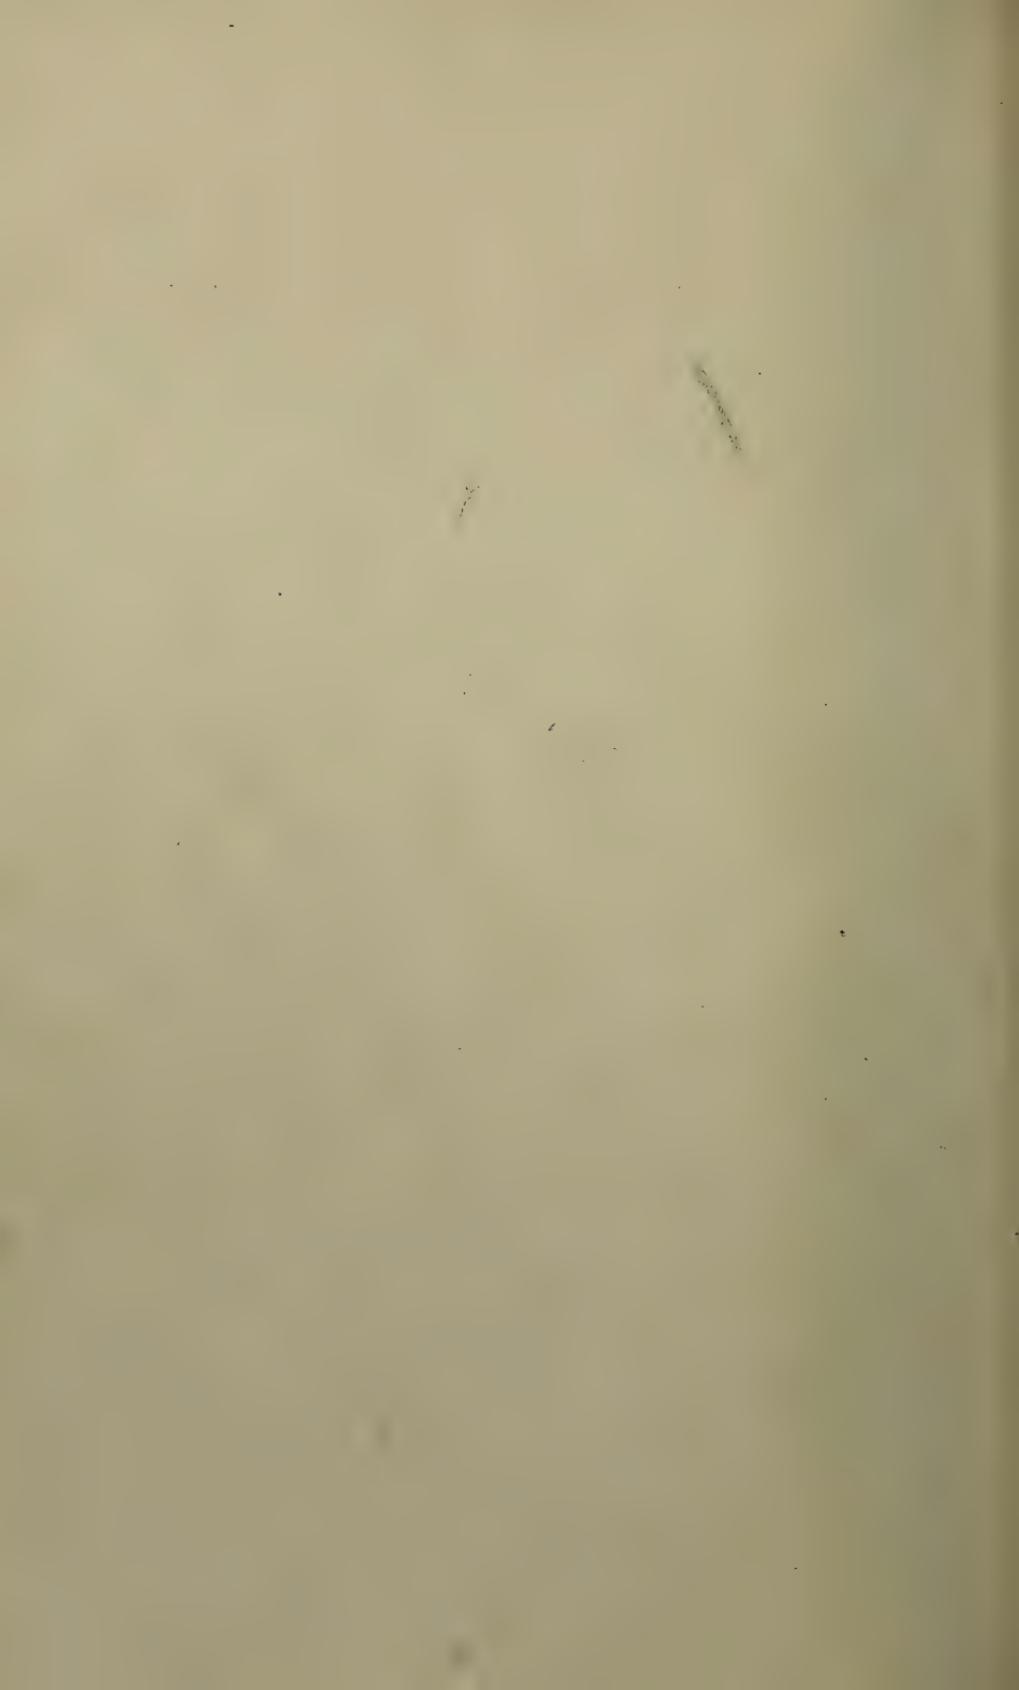

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE DISPENSARY DEPARTMENT.—Professional services are rendered gratuitously. Those who can afford to do so are expected to reimburse the Institution for the actual cost of apparatus. Payment for apparatus is received in installments, if required. Apparatus, however, is never *sold* to patients or others—the Institution reserving the right to remove the apparatus and discharge any patient not complying with the directions of the Surgeons. Apparatus will not be supplied in any case that does not come under the immediate care of the Institution.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE HOSPITAL DEPARTMENT.—Any suitable Orthopædic case may be admitted. Application for admission may be made to the Surgeon to the Hospital during the regular Dispensary hours.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE COUNTRY BRANCH AND INDUSTRIAL SCHOOL.—Applications for admission to this Hospital is made through the City Hospital, and only patients who are under treatment at the City Hospital will be admitted to the Country Branch.

THE MEDICAL PROFESSION and the public generally are invited to visit the Institution.

THE INSTITUTION is supported by the contributions of the benevolent. Contributions, which are earnestly solicited, may be sent to the Treasurer.

## BOARD OF SUPERVISORS FOR 1920

---

### Supervisors.

Mrs. CHARLES B. ALEXANDER, 4 West 58th Street.	Mrs. PERCY R. PYNE, 680 Park Avenue.
Mrs. ROBERT S. BREWSTER, 100 East 70th Street.	Mrs. WHITELAW REID, 451 Madison Avenue.
Mrs. JAMES A. BURDEN, Ritz Carlton Hotel.	Mrs. DOUGLAS ROBINSON, 9 East 63d Street.
Mrs. JOSEPH H. CHOATE, Jr., 10 East 94th Street.	Mrs. CHARLES H. SENFF, 16 East 79th Street.
Mrs. M. DWIGHT COLLIER, 14 East 65th Street.	Mrs. WILLIAM D. SLOANE, 2 West 52d Street.
Mrs. CHARLES D. DICKEY, 37 East 51st Street.	Mrs. EDWARD T. H. TALMAGE, 15 East 69th Street.
Mrs. CHARLES de RHAM, 24 Fifth Avenue.	Mrs. HENRY M. TILFORD, 24 West 52d Street.
Miss FRELINGHUYSEN, 113 East 65th Street.	Mrs. A. MURRAY YOUNG, 29 Park Avenue.
MISS E. S. HAMILTON, 520 Park Avenue.	Mrs. JOHN HOBART WARREN, 520 Park Avenue.
Mrs. WALTER JENNINGS, 11 East 70th Street.	Miss CAROLINE WHITE, 609 Fifth Avenue.
Mrs. J. ARCHIBALD MURRAY, 57 East 66th Street.	

---

### Honorary Members.

Mrs. E. MILBANK ANDERSON,	Mrs. JAMES T. LEAVITT,
Mrs. WM. METCALF BLISS,	Mrs. WILLIAM ROBISON,
Mrs. WILLIAM S. COWLES.	

---

### Officers.

#### President,

Mrs. CHARLES B. ALEXANDER.

#### First Vice-President,

Mrs. A. MURRAY YOUNG.

#### Second Vice-President,

Mrs. JAMES A. BURDEN.

#### Third Vice-President,

Mrs. DOUGLAS ROBINSON.

#### Secretary,

Miss E. S. HAMILTON.  
520 Park Ave.

#### Treasurer,

Mrs. CHARLES de RHAM.  
24 Fifth Ave.

## Supervisor's Standing Committees for 1920.

---

### House Purchases.

Mrs. CHARLES D. DICKEY, Chairman.  
Mrs. J. ARCHIBALD MURRAY. Miss E. S. HAMILTON.  
Mrs. WALTER JENNINGS.

### House.

Mrs. J. ARCHIBALD MURRAY, Chairman.  
Mrs. CHARLES D. DICKEY. Miss CAROLINE WHITE,  
Mrs. ROBERT S. BREWSTER. Mrs. JOSEPH H. CHOATE, Jr.

### Free Beds.

Mrs. DOUGLAS ROBINSON, Chairman.  
Mrs. WHITELAW REID. Mrs. A. MURRAY YOUNG.  
Miss E. S. HAMILTON. Miss FRELINGHUYSEN.  
Mrs. CHARLES de RHAM. Mrs. PERCY R. PYNE.  
Mrs. EDWARD T. H. TALMAGE.

### Entertainment.

Mrs. CHARLES B. ALEXANDER, Chairman.  
Miss FRELINGHUYSEN. Mrs. ROBERT S. BREWSTER.  
Mrs. JOHN HOBART WARREN. Mrs. CHARLES D. DICKEY.  
Mrs. J. ARCHIBALD MURRAY. Mrs. HENRY M. TILFORD.  
Mrs. DOUGLAS ROBINSON.

### Instruction.

Mrs. DOUGLAS ROBINSON, Chairman.  
Miss FRELINGHUYSEN. Mrs. E. T. H. TALMAGE.  
Mrs. CHARLES D. DICKEY. Mrs. CHARLES B. ALEXANDER.

### Nominating.

Mrs. PERCY R. PYNE, Chairman.  
Mrs. CHARLES B. ALEXANDER. Mrs. CHARLES D. DICKEY  
Mrs. DOUGLAS ROBINSON.

### Conference.

Officers and Chairman of Other Standing Committees.

THE ROTUNDA—DISPENSARY

## REPORT OF THE PRESIDENT

*To the Board of Trustees and the Board  
of Supervisors.*

LADIES AND GENTLEMEN:

The loyal support of our friends during the past year has enabled us to carry on the work of this institution without any lessening of its activity or any reduction in value and amount of its important and unique service to the people of this city. To all, therefore, who have helped us to carry on this work in the face of rising costs and difficulties of operation, I extend most appreciative thanks.

The Hospital and Dispensary have been used to capacity. The figures for 1919 show marked increases over those for 1918, 8,000 more visits were made to the Dispensary, 400 more operations were performed in the Hospital, and 3,500 more visits were made by our visiting nurses. In spite of this great increase in volume, the quality of the work has been fully maintained. To accomplish this amount of work meant, of course, larger expenses, so that our carefully studied budget was nevertheless exceeded and we were unable to close the year without a deficit. The deficit, however, which amounted to \$14,500, was \$3,000 less than in 1918 and over \$10,000 less than in 1917. It has been covered this year as formerly by gifts from the Trustees and Supervisors. Our increased expenditures were almost wholly due to higher salaries and wages. The expenditures for food have not increased to such a degree, which reflects careful buying and economical management on the part of the Superintendent and housekeeper.

While we have spent more in running the Hospital we have also increased our receipts. Additional gifts to principal are now producing income and the number of contributors has been largely added to. It would seem that the people of New York feel a responsibility toward those institutions whose work they approve. I feel that our work has their approval in full measure, for our former contributors continue their gifts and we are securing new friends daily. We must have this support from the public to

enable us to do our work. The increased amount which we shall receive from the United Hospital Fund (to be distributed in 1920) will help reduce our deficit; it will not take the place of our regular supporters on whom we confidently depend.

Our former Hospital property at 130 East 59th Street and 129 East 58th Street, was sold in November last. During the period since we vacated it, these buildings have been of use to the community, first as a temporary hospital for victims of the poliomyelitis epidemic in 1916; and afterward during 1918 and part of 1919, it has been used by the New York Cooking School, which has conducted classes in teaching cooking to the enlisted men of the Army and Navy. Opportunity to sell the property, however, at a price deemed satisfactory, the Trustees thought wise to accept, and the proceeds of the sale will be added to our income producing funds.

While the financial affairs of the hospital and details of its operation have been the chief occupation of the management, the surgical work of Dr. Hibbs and his assistants is becoming increasingly known and studied throughout the medical profession. It is most gratifying to note the widespread interest aroused by the work being done at the Orthopædic as evidenced by the many interested visitors, from other cities of this country and from abroad, who have attended our operative clinics.

The State Board of Charities places the Hospital as usual in the first class in all respects.

A faithful and interested Board of Trustees, loyal and devoted Board of Supervisors, giving of their time and means, are a stimulus to the staff and to the management and employees of the hospital, to whom, for the faithful performance of their duties and for their loyalty, I wish to express my very grateful appreciation.

---

Miss Watson's continued interest and generous support have enabled us to conduct the work at the Country Branch to its full capacity this year as last. This very interesting work is proving its value more and more each year. The children, cured of disease and restored to their homes, fitted to take up the burdens and

duties of life have a real affection for this hospital where many of them have spent long periods. The annual reunion of former patients held in the spring brings many back and is a most interesting occasion.

Certain much needed repairs and alterations have been made to the plant which are real improvements. Porches to each wing where the children's beds can be placed, have been built. The kitchen has been restored and lined with tile, and adequate and sanitary ice boxes and compartments for the storage of milk and foodstuffs installed.

The financial statement shows that expenses have increased here as at the City Hospital, but the Country Branch is being economically and efficiently conducted and we have a loyal and earnest staff devoted and faithful to the work.

Respectfully submitted,

ROBERT S. BREWSTER,  
*President.*

January, 1920.

## REPORT OF THE BOARD OF SUPERVISORS

*To the Trustees of the New York Orthopaedic Dispensary  
and Hospital.*

GENTLEMEN:

We have the honor to present to you the Report of the Board of Supervisors:

During the year our Board has been deprived by the death of Mrs. R. Fulton Cutting of one of our oldest and most valued members, who served on it with unsurpassed and whole-hearted devotion for twenty-seven years. It is an irreparable loss, deeply felt and deeply mourned by all her associates; her presence will be sadly missed as will her wise counsel and unfailing interest.

In presenting our Annual Report we are happy to say that notwithstanding the unprecedented conditions which have created such great difficulties for all institutions, we have not been forced to allow any of our special works to lapse nor curtailed any of our activities. The generosity and interest of our friends have been beyond all praise, beyond adequate expression of gratitude on our part. We are more thankful than it is possible to say.

The work of our Guilds and Auxiliary Societies has counted enormously in these results.

The Orthopædic Guild has supported two Free Beds and given all the clothing and linen necessary for the Girls' Wards which are under their care.

The Orthopædic Hospital Sewing Society has provided all the linen used in the Hospital except in the two wards above mentioned, and given one hundred dollars to provide braces for needy patients.

The Junior Guild has supported a Free Bed, given clothing for the Babies' Wards, \$100 to the Endowment Fund, \$100 for potatoes, \$30 for the Ice Cream Fund.

We beg to refer to the reports of these Societies in our Year Book as giving in greater detail the reports of their activities.

The support of the visiting Nurses, those invaluable Aids to the work of the Surgeons, continuing the care of the patients after leaving the Hospital, or during the period of their treatment in the Dispensary, has been met by the generosity of Mrs. Alexander, Mrs. Reid, Mrs. Sloane, Mrs. Senff, Mrs. F. W. Vanderbilt, and Mrs. A. Murray Young, and from a special fund given the Surgeon in Chief for this purpose.

Miss Caroline White has again most generously given toward the salary of the Special Masseuse.

Our School has been extremely successful. One hundred and ninety-four children were enroiled. Encouraging reports have been received of the scholars returned to their classes, and some ahead of their grades, proving the importance of this work, for which we have no provision, and depend upon especial donations; for its maintenance we therefore solicit assistance.

Our Special Funds, which exist to provide delicacies, and the fresh fruit and vegetables so difficult to obtain, we most earnestly recommend to the consideration of our friends. Gifts of barrels of apples and potatoes and fresh vegetables and fruit during the summer, and of ice cream, are solicited and will be greatly appreciated.

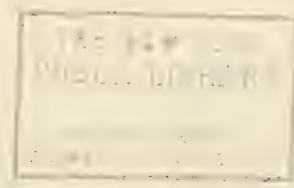

Christmas was especially happy. All the Hospital's friends seemed to vie with one another to make it so. It began the day before when Mrs. Sloane visited the wards and gave each patient a present and each nurse a book. On Christmas morning each child had a stocking the girls from the Orthopædic Guild, the babies from the Junior Guild. Christmas Trees and a present for each patient were given by Mrs. Brewster and Mrs. Young. The Hospital was decorated with wreaths and holly by Mrs. Dickey. Mrs. Warren gave turkeys and Mrs. Murray and Mrs. Pyne ice cream and cake for the dinner. Candy, flowers and plants came from others interested in making the Hospital Christmas gay. The Dispensary patients received presents, one hundred from Mrs. Brewster and Mrs. Young, and one hundred from Mrs. Pyne and Mrs. Tilford. Four hundred and twenty dollars were given for dinners; this meant that ninety-four families of Dispensary patients each received a generous basket. Mrs. Douglas Robinson, Mrs. Dickey, Mrs. Talmage and Miss Hamilton gave presents for

the maids. We wish it were possible to enumerate all the gifts and to thank personally all the givers. The Christmas festivity is one of the happy traditions of the Orthopædic Hospital and this year's rivalled the best in the past. A new and very pleasant feature was the Nurses' entertainment, which was greatly enjoyed.

In conclusion we make our Annual Appeal for the necessary aid to carry on our work in the full confidence that it will meet with as noble and generous a response as in the past. We trust we have shown during the difficult years, when all hospitals and institutions have more than ever been called upon to justify their right to exist and demand public support, that we have earned our title to stand in the foremost ranks of those whose claims cannot be gainsayed, that the ordeal has but proved our worth and multiplied for us friends as well as staunch supporters.

Respectfully submitted,

(Signed) ELIZABETH STEWART HAMILTON,  
*Secretary Board of Supervisors.*

A TREATMENT ROOM—DISPENSARY

## REPORT OF THE SURGEON-IN-CHIEF

*To the Board of Trustees of the New York Orthopaedic Dispensary and Hospital.*

GENTLEMEN:

During the year ending December 31st, 1919, the total number of patients treated in the Dispensary was 15,150; of this number 6,726 were new patients who made their first visits, and the remainder were old patients continued under treatment from last year. This shows an increase of 664 patients.

Table No. 1 gives the classification of these patients, and shows that there were 1,331 cases of joint tuberculosis, 4,514 cases of deformities of the feet, 1,026 cases of non-tuberculous deformities of the spine, 643 cases of bow-legs and knock-knees, 1,968 cases of paralytic deformities, and the remainder were suffering from a great variety of chronic deforming diseases.

Table No. 2 shows the result of treatment. 855 were discharged cured, 2,938 discharged relieved, making a total of 3,793 individuals restored to conditions of health, where they no longer needed treatment. Eight were discharged incurable, 83 for neglect, 105 died, 2,080 had no treatment after their first visit and were discharged, and 9,091 were continued under treatment at the end of the year.

Table No. 3 shows the detail of the work in the treatment of these cases in so far as such detail may be tabulated. The total number of visits made by patients to the Dispensary was 70,536, the total number of visits made to patients at their homes by surgeons was 864, and by nurses to patients at their homes, 27,907 visits to 6,631 patients, making a grand total of 99,307 visits. This makes an average of over 310 visits per day for the entire year.

Table No. 4 is a detailed report of the work done in the manufacture of braces, and shows the number of new instruments made to be 5,772, and the number repaired 8,463. The amount charged

for apparatus was \$18,842.00, and the amount collected from patients \$18,210.00. It must be noted in this connection that in the first place the charge for apparatus is more or less nominal and in any case where the patient is unable to pay for an apparatus, it is furnished free, and in other cases only part payment is received.

CITY HOSPITAL—The number of patients in this Hospital on January 1st, 1919, was 79, the number received during the year was 903, the number discharged 888, 7 died, and the remainder 87, continued under treatment January 1st, 1920. The average number of patients per day was 87. The average duration of stay of each patient was 32 days. The average duration of stay last year was 40. This shows a gain of 8 days. This is made possible by the fact that through our visiting nurses, we are able to give most excellent care to patients at their homes, and therefore, can send them out of the Hospital much earlier than formerly. In this way, we are enabled to give Hospital care to patients at their homes, making our beds available for a larger number of patients. There were 247 patients of this class sent out of the Hospital, who received Hospital care at home. In spite of this fact, however, the waiting list for admission to the wards is rarely less than 200, and patients often have to wait 6 or 7 months for a bed.

The number of free days care in the wards was 23,284, the number of days of pay care 8,608.

Table No. 6 shows that the number of patients operated on was 811, and the number of operations performed was 1,265. Careful study of the details of this table gives evidence of the wide range of operative work performed here, and by comparison with the table of ten years ago, shows an enormous development of this department of surgery.

COUNTRY BRANCH—The number of patients in this Hospital on Janauary 1st, 1919, was 118, and the number admitted during the year was 78, 64 were discharged and 4 died, leaving 128 on January 1st, 1920.

As you are aware, these patients are those suffering from joint tuberculosis, and in most cases among young children, and our ability now to secure the admission of these patients earlier in

disease has had a very important influence on the character of the work in this Institution and its results. In the first place, each of those admitted being much younger, makes the care more difficult, but at the same time, it is necessary to keep the patients a much shorter time, as their cure is affected more quickly.

Our ability to care for these patients in this Hospital relieves the City Hospital of an enormous burden; as, without their treatment in the country, they would have to be cared for in town, and very few of them would get well there, and would require years and years of treatment.

Respectfully submitted,

RUSSELL A. HIBBS, M. D.,

*Surgeon-in-Chief.*

## REPORT OF THE SUPERINTENDENT

*To the Board of Trustees of the New York Orthopaedic Dispensary and Hospital.*

GENTLEMEN:

I have the pleasure to submit my report for the year 1919.

During the year, 70,536 visits were made by patients to the Dispensary, and 27,907 visits were made by our Visiting Nurses to the homes. There were 31,892 patient days in the Hospital; 982 patients being treated. The average length of stay of the patients in the Hospital was reduced from 40 days (1918) to 32 days—a most encouraging fact.

For the receipts and disbursements of the Hospital, I refer you to the Treasurer's report. The cost per patient day in the wards was \$3.30, and the cost for each dispensary treatment was 74c. Not only have the expenses and salaries increased, but it has been necessary to employ new workers in nearly all the departments of the Hospital and Dispensary, as the number of patients has increased and the work has enlarged.

Beginning in June, a charge of 25c was made to all new Dispensary patients for the admission or registration card. Also, a charge of \$2 was made for the first X-Ray taken at the Hospital; all other X-Rays taken being included in this initial charge.

We wish to thank the Societies, Guilds, and individuals who have contributed in various ways to the welfare of the Hospital, and to the comfort of the patients. I would like to especially mention the Country Home for Crippled Children at Westfield, N. J., which takes each summer for 3 months 15 of our crippled children.

The past year has been a very trying one, for "after-war" spirit and conditions have existed everywhere. I wish to express my sincere appreciation to the surgeons, officers, nurses, and other employes for their willing co-operation and never-failing devotion

to the interests of the Hospital, for without it, whatever measure of success we have achieved would have been impossible.

To the Trustees and Supervisors, for their support and consideration, I am most grateful.

Respectfully submitted,

THEODORA S. ROOT,

*Superintendent.*

## ORTHOPAEDIC GUILD REPORT

In presenting my Annual Report of the Orthopædic Guild for the year 1919, I am pleased to state, that the year has been very successful. During the year we have received eleven new Active Members, and thirteen Associate Members, which gives us an Active Membership of forty-four, and an Associate Membership of fifty, making a total of ninety-four. We regretted exceedingly the resignation of our President Mrs. Dutton, who had served us so faithfully. Our former President Mrs. Monchant was elected in her place. We are supporting two beds, and in addition providing the necessary articles for twenty beds. We received very generous offerings at Christmas and Easter from our members.

Respectfully submitted,

(Signed) FLORENCE B. FLEMING,

*Secretary.*

## TWENTY-FOURTH ANNUAL REPORT OF THE ORTHOPAEDIC HOSPITAL SEWING SOCIETY

The annual report of the Orthopaedic Hospital Sewing Society is encouraging as regards the number of articles received and those on hand.

Mrs. Samuel Clark, chairman of the Working Committee, reports:

January 1st, 1919, number of articles on hand.....	1,467
Added during the year.....	4,162
	5,629
Taken out for use.....	..... 2,294
Leaving in the linen closet, January 1st, 1920.....	3,325

As heretofore we are greatly indebted to Mrs. Clark for her faithfulness and efficiency in fulfilling the duties of her office.

It is with deepest regret we record the loss of five members during the past year, four of these through death and one by resignation. We are pleased to announce the additions of two new members.

Respectfully submitted,

(Signed) KATHERINE M. LUCE,  
Secretary.

## REPORT OF THE JUNIOR GUILD.

The Junior Guild has continued its usual support in providing garments for the three wards on the sixth floor, a bed in the Girls' Ward and has made donations to the Endowment, Ice Cream, Fruit and Potato Funds.

We are trying to increase our work and have added several new members to our list.

On January 1st, we will start supporting a visiting nurse for a year. The interest in our work is growing and we hope, this year, to accomplish more than ever before.

Respectfully submitted,

URLING H. BENEDICT,

*Secretary.*

## REPORT OF THE COUNTRY BRANCH COMMITTEE

*To the Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

It is with great pleasure that I report the usual comment upon the Country Branch children, that they do not have the usual institutional appearance, and excepting the crutches and braces which their condition necessitates they seem to be only a happy set of children, pursuing the common school system under very competent teachers.

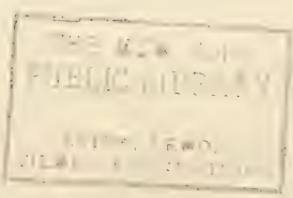

Mrs. Bridgman has been very successful in keeping down expenses with the problem of nurses who have been so difficult to secure and servants equally so, both ready to obtain situations in private families where the wages given are very large.

I wish to express to the Trustees my thanks for the interest and time they have devoted to the Country Branch, for I know they have many matters that require their attention, and many difficult problems to grapple with.

This year will close without any deficit which is so discouraging to an institution, and I think we can look forward to the year 1920 with pleasure.

Respectfully submitted,

(Signed) EMILY A. WATSON.

EVERY GIRL AT THE COUNTRY BRANCH HAS A DOLL

## REPORT OF THE SUPERINTENDENT OF THE COUNTRY BRANCH.

*To the Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

The Country Branch has gained in one respect the past year. It has had the largest number of patient days in its history—45,721, or 1,159 more than any previous year. The per capita cost has been \$2.01—11 7/10% more than last year. The total expenses for the year were \$85,813.34—\$10,757.15 more than the income. A surplus of \$5,992.00 remaining at the beginning of the year was applied to this deficit and Miss Watson made up the balance.

Seventy-eight children were admitted during the year, sixty-four were discharged, and four died.

Through the continued generosity of Miss Watson, a beautiful new central refrigerator has been installed, porches have been added to the wings, and the kitchen has been entirely renovated.

Some of our neighbors have helped us very materially this year. Mr. Hubert in lending us his lawn mower whenever we needed it, and Mr. Bencoe in giving us two hundred dollars towards our expenses.

We are always especially grateful to those who help make the children happy, and wish to take this opportunity to reiterate our thanks: to Mrs. E. H. Crandall for the memorable day she gave twenty-five of the children at a luncheon and lawn party at her Sound Beach home, to the Elks' Society of White Plains and to Mrs. Waite and Miss Buckman for giving all the children who were able to go, an automobile ride, to the committee, and especially to Mr. Brewster, for a happy holiday season.

Respectfully submitted,

STATIRA M. BRIDGMAN.

No. 420 EAST 59TH STREET.

EAST OF FIRST AVENUE.

---

*Open from 1 to 3 P. M. Daily (Sundays and Legal Holidays Excepted)  
for the Reception and Treatment of Patients.*

---

OBJECTS OF THE INSTITUTION.—“To furnish treatment to the poor with special reference to the Diseases and Deformities of the Spine and the Hip Joints and other of the more serious diseases of the bones and joints requiring surgical and mechanical treatment, and for giving instruction in the same.” All cases of deformity, besides those mentioned, including Club Foot, Lateral Curvature of the Spine, Infantile Paralysis, Bow-Legs, etc., are received and treated.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE DISPENSARY DEPARTMENT.—Professional services are rendered gratuitously. Those who can afford to do so are expected to reimburse the Institution for the actual cost of apparatus. Payment for apparatus is received in installments, if required. Apparatus, however, is never *sold* to patients or others—the Institution reserving the right to remove the apparatus and discharge any patient not complying with the directions of the Surgeons. Apparatus will not be supplied in any case that does not come under the immediate care of the Institution.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE HOSPITAL DEPARTMENT.—Any suitable Orthopædic case may be admitted. Application for admission may be made to the Surgeon to the Hospital during the regular Dispensary hours.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE COUNTRY BRANCH AND INDUSTRIAL SCHOOL.—Applications for admission to this Hospital is made through the City Hospital, and only patients who are under treatment at the City Hospital will be admmitted to the Country Branch.

THE MEDICAL PROFESSION and the public generally are invited to visit the Institution.

THE INSTITUTION is supported by the contributions of the benevolent. Contributions, which are earnestly solicited, may be sent to the Treasurer.

A RECEPTION ROOM IN THE DISPENSARY

## REPORT OF THE PRESIDENT

*To the Board of Trustees and the Board  
of Supervisors.*

LADIES AND GENTLEMEN:

A report of the year 1920 must first note the loss the Hospital has suffered in the death of our former President, Mr. Eugene Delano. Oldest in years and in length of service, he was unfailing in his devotion to our work, giving freely of his time and generously of his means. During his term of office as President, the Hospital made great strides forward, both on the professional side and as regards its plant and equipment. The additions were built at the Country Branch, thus increasing threefold the beneficent work done there; the money was raised for the new City Hospital, and the building, of which we may all be so justly proud, was completed, enabling us to care for greater numbers in the dispensary and giving Dr. Hibbs and his assistants the best of facilities for the development of their work. Perhaps only to the profession is fully known the great advance which has been made in orthopaedic surgery during the time Mr. Delano served on the board of this hospital. Credit for helping to bring this about must be given him and for his loyalty to this institution and his faith in its aims and ideals.

The past year has been notable in that our receipts have exceeded our expenses; a most gratifying fact. In seeking the reason for this satisfactory showing and because it can hardly be expected that this year's operation will show the same result, we find a matter of policy involved which is of great importance.

The total expenses for 1920 closely tallied with the estimates, which reflects much credit upon the Superintendent and the Committees charged with the preparation of the budget and denotes wise and careful management. The receipts, however, were increased very materially and chiefly in three respects. First, the money received from the United Hospital Fund greatly exceeded the gifts from this source in former years. Second, the income

from our endowment funds showed a marked increase. And third, the system of charging for continuing visits to the dispensary produced a very substantial return. This system of charges was put into effect on May first and required for each visit to the dispensary a fee of twenty-five cents. The plan formerly in effect required this fee for the first visit only and was really a registration fee and in that respect eminently proper. Charging for each visit, however, was something quite other than this, and while recognized as proper in most general dispensaries, bid fair not only to work a hardship on many of our patients whose visits must continue sometimes for years, but also affected their welfare in that some began to give up coming or came at irregular and infrequent intervals, thereby interrupting or preventing satisfactory treatment.

It is probably true that the hospital facilities offered the public in this city are abused. Perhaps this is, unhappily, a frequent fact, but we must expect to some extent, to have our services sought for and accepted by those who can and should pay for professional advice and treatment. But, because of this, for us to deny our help to some unfortunate cripple, who, through pride or poverty, finds it impossible to continue his visits to the dispensary, would be entirely contrary to the spirit and the past record of the New York Orthopaedic Dispensary and Hospital. This subject of charges was carefully considered by the Staff, the Officers and the Executive Committee and on December first was abandoned.

I have dwelt upon this matter to the exclusion of other things in this report, for I feel deeply the principle involved. These dispensary fees last year amounted to \$8,000. We shall not have that revenue this year, but if by cutting off our income from this source, our deficit is increased by so much, I believe every member of both boards will approve; and furthermore the public spirited people of this city on whom we rely for support, will endorse our stand and see that our work shall not be crippled in scope or in quality by lack of funds.

The statistics for the past year will be found in the report of the Surgeon-in-Chief and in the tables published in the year book. Generally speaking, they show about the same amount of work done as in the previous year. In some items we note an increase,

in others a decrease. We can safely feel that, as heretofore, the quality of our service has been fully maintained and that the work done by Dr. Hibbs and his staff is keeping us in the forefront of all institutions of this specialized character. The State Board of Charities gives the Dispensary and Hospital the highest rating.

At the close of the year Mr. August Heckscher resigned from the Board of Trustees, feeling that his time and energy must chiefly be devoted to the children's home and building which he is planning for the Society for the Prevention of Cruelty to Children. While reluctant to accept his resignation, the reason given assures us that the needs of the crippled child, whether crippled by physical misfortune or by environment, are near his heart. Mr. Winthrop W. Aldrich has been elected to fill the vacancy caused by Mr. Heckscher's resignation.

It is difficult to say much in a report about the Country Branch. To appreciate fully the splendid work done there requires a visit. I hope that the members of the two boards will more often visit the Country Branch. Miss Watson's splendid gift is doing a wonderful work in restoring to health many children whose chance for being anything but a burden to the community would be nil, except for her far sighted vision and abundant generosity.

The past year has had its problems and its difficulties, its trials and its disappointments. Thanks to the loyal service of the Staff and those charged with the management of the City Hospital and the Country Branch, they have been overcome and we may look forward to the coming year with confidence and with courage.

Respectfully submitted,

ROBERT S. BREWSTER,  
*President.*

January 21, 1921.

## REPORT OF THE BOARD OF SUPERVISORS

*To the Trustees of the New York Orthopaedic Dispensary  
and Hospital.*

GENTLEMEN:

We have the honor to present to you the report of the Board of Supervisors.

At the annual meeting of the board the following Resolution was presented and unanimously adopted:

*Resolved*, That it is with the deepest regret that the members of the Board of Supervisors of the New York Orthopaedic Dispensary and Hospital recognize the great loss the institution has suffered in the death of its valued member—

MRS. JAMES ABERCROMBIE BURDEN.

From the time of her first connection with the institution in 1883 Mrs. Burden gave herself with gracious generosity to the betterment of the work which she always held closely to her heart.

Her loyal interest and unselfish devotion will be sadly missed in days to come, and her fellow members on the Board of Supervisors wish to record their sorrow at her loss not only for themselves, but for the philanthropic endeavor in which their interest has been so closely allied with her own.

*Further Resolved*, That a copy of this Resolution be sent to the family of Mrs. Burden, accompanied by an expression of sympathy from the Board of Supervisors.

During the past year, owing to the generosity and interest and the enthusiastic support of our friends, we have been able to continue, even to add, to our activities. We wish to express our grateful appreciation for the hearts as well as hands that were lent us, and for the warmth of their spirit which has been an inspiration and a support in all that we have undertaken.

To our Auxiliary Societies that work so faithfully with us for the welfare of the hospital, we give our heartfelt thanks. They lift many burdens for us.

The Orthopaedic Guild has supported three Free Beds and given all of the linen and clothing used by the two girls' wards.

The Orthopaedic Hospital Sewing Society has given all of the linen used in the hospital excepting that provided by the Guild, and has made a donation of \$100.00 for braces.

The Junior Guild gave \$350.00 for an Annual Free Bed, the salary of a Visiting Nurse, and \$150.00 for potatoes and ice cream. They also provided the clothing for the children in the three babies' wards. Slight wonder that we are grateful for such help!

Seven of the Visiting Nurses, whose work aids enormously in the cure of patients by after care and by following the Dispensary cases, we owe to Mrs. Charles B. Alexander, Mrs. Robert S. Brewster, Mrs. Henry White, Mrs. Whitelaw Reid, Mrs. A. Murray Young, Mrs. Frederick Vanderbilt and the Junior Guild; and five of them to a fund provided by Mrs. Louis B. Preston through Dr. Hibbs. It is impossible in a few short words adequately to thank these benefactors.

Miss Caroline White generously donated the salary of a matron.

A Free Bed in Perpetuity was endowed by Mrs. John Hobart Warren.

We ask for contributions to our School Fund. To continue the patients' instruction while under hospital care is one of our important activities, and although constituting a serious expense, we feel that it must not be allowed to lapse. One of our patients left the Public School at Grade 5A to enter the hospital. Upon his return he was promoted to Grade 5B. Surely such occurrences justify our solicitude for the instruction of the children while they remain with us.

Through the kindness of The People's University Extension Society the patients now have lessons in Occupational Therapy work, supplies for which Mrs. Charles D. Dickey generously donates. These lessons help to pass many a weary hour, and interest the patients exceedingly, besides teaching them to use their hands with dexterity and skill.

Christmas was joyous. We wish that all the friends who contributed to make it so had been able to see how much their efforts were appreciated.

All the patients had Christmas stockings through the different Guilds and other friends. Mrs. White gave each one a present and books to the nurses. Mrs. Brewster and Mrs. Young gave Christmas trees for each floor with a present for each patient and also gave one hundred presents for dispensary patients. Mrs. Pyne and Mrs. Tilford gave presents for two hundred more dispensary patients. Mrs. Dickey gave Christmas holly. Mrs. Alexander and Miss Hamilton gave a nurses' party. Mrs. Brewster, Miss Frelinghuysen, Miss Hamilton, Mrs. Robinson and Mrs. Talmage gave presents for the maids. Mrs. Warren gave turkeys for the Christmas dinner and Mrs. Pyne and Miss Frelinghuysen ice cream and cake.

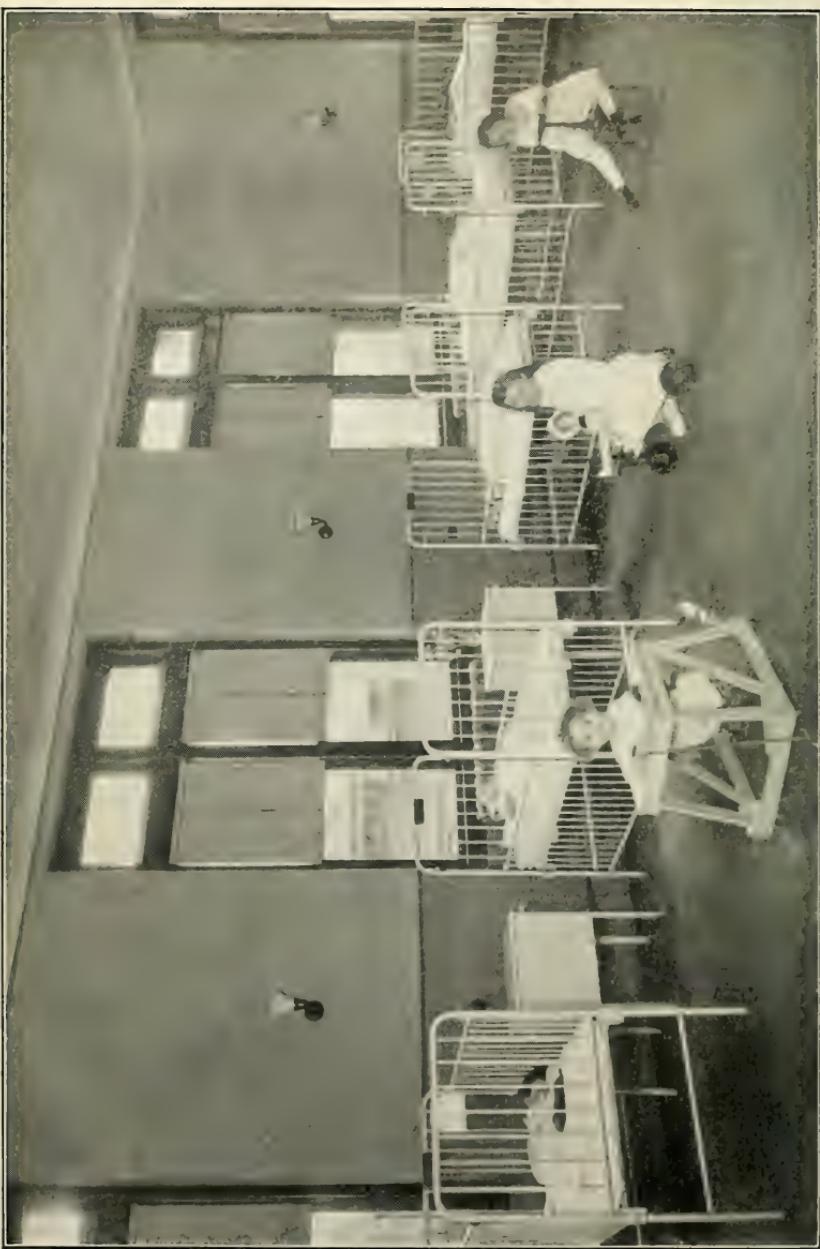

Christmas dinners were given to the families of many of the dispensary patients, and many friends not directly connected with the hospital gave Christmas dinners, stockings, toys and candy. It was a very happy day.

We conclude our report with an appeal for a continuance of the support which has enabled us to bring the work of the present year to a successful conclusion, and we appeal in the name of those who patiently await the cure which has been given to their brethren; those who suffer, who force lie idle while life is before them. We appeal that they may be given their share, that they may take their place among the doers of the world, and not stand helpless, a burden with death the only solution.

Respectfully submitted,

ELIZABETH STEWART HAMILTON,  
*Secretary.*

ONE OF THE BABIES' WARDS

## REPORT OF THE SURGEON-IN-CHIEF

*To the Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

During the year ending December 31, 1920, the total number of patients treated in the institution was 16,119. Of this number 7,029 were new cases and the remainder were those continued under treatment from last year. This is an increase of 968 over the number treated during the previous year. 1,350 were suffering from joint and bone tuberculosis; there were 4,807 deformities of the feet and 757 cases of non-tuberculous deformities of the spine; 900 rachitic deformities of the legs; 1974 cases of paralytic deformities and 6,331 suffering from a variety of deforming diseases. For details see Table No. I.

Table No. II shows the results of treatment. 844 patients were discharged cured and 2,888 were relieved, making a total of 3,732 individuals sufficiently improved to require no other treatment. Ten were discharged incurable; 32 for neglect; 75 died; 2,701 had no treatment after the first visit and were discharged, while 9,569 were continued under treatment at the end of the year. Table No. III gives in detail the work performed in the treatment of these patients. The total number of visits made by patients to the Dispensary was 67,889; the total number of visits made to patients at their homes by surgeons and nurses was 27,097, a grand total of 94,986 visits. This is an average of 304 visits per day for the entire year. It is important to note in connection with this table that of the 7,306 patients who were visited at home by our visiting nurses, 445 were discharged from the hospital ten days after operation, and, but for the fact that we have these nurses, such patients would be required to stay in the hospital from four to six weeks longer, thus making our hospital beds available for a much smaller number.

In other words, this department of the work is, very properly speaking, a home hospital department, and is obviously of great value, as many of our patients do perfectly well with home care after their operations.

Table No. IV is a detailed report of the work done in the manufacture of braces. The number of new instruments made was 5,487; the number repaired was 7,566. It must always be remembered that the amount charged for braces is nominal, and when patients are unable to pay, the braces are furnished them without charge.

CITY HOSPITAL.—The number of patients in this hospital on January 1, 1920, was 87; the number admitted during the year was 952; the number discharged was 951; 5 died, and the remainder, 83, are continued under treatment on January 1, 1921. The average number of patients in the ward every day during the year was 81, and the average duration of the stay of each patient was 29 days. The short stay in the hospital in many instances has been made possible by our home hospital service referred to above.

The demands made upon the hospital for admission are evidenced by the fact that at the end of the year there were 265 patients waiting for admission. The number of days of free care in the wards was 20,024 and the number of days of pay care was 9,790.

The operative Table is No. VI. 869 patients were operated on and the total number of operations was 1,399.

COUNTRY BRANCH.—The number of patients in the hospital on January 1, 1920, was 128, admissions during the year, 98; there were 91 discharged and 1 died, leaving 134 on January 1, 1921. The Country Branch in its effective service to children suffering from joint tuberculosis, continues to fulfil one of the greatest needs in the whole field of surgical work. Here, again, the waiting list is always large.

The record in statistics for the past year's work must be given and the figures are of interest, but they give a very inadequate picture of the year's activities in the essential life of the institution. This cannot be appreciated except by those in

close touch with that life, and in the measure that they are sensitive to the great human problems of disease and deformity which affect those who come to us for aid.

I wish I might interpret to you what those of us who perform the details of the ministrations face day by day in witnessing the tragedy in the lives of individual men, women and children whom we see. They are poor and crippled and constitute the class of persons to whom this institution offers the hope of finding restoration to something approaching the normal life of his fellows.

The fact that so large a number of people seek our aid year by year is evidence that, in some measure at least, we are able to give them relief. I am frank to say, however, that we are not so successful as we hope to be, but I believe that better work is being done and that surgical methods are being perfected.

We are rendering a service also, I think, to the crippled in the broad sense of the term, by the opportunities afforded to students of the College of Physicians and Surgeons for the study of orthopaedic surgery. These students are taught in sections in the institution throughout the year. This means that there will be sent out, all over the country, young doctors who have at least the knowledge of the diagnosis of crippling diseases, and may, therefore, secure for those so affected efficient treatment at an early period, when that treatment can be most effective, a thing now so sadly missing.

One other aspect of our educational work pertains to visiting surgeons who come in increasing numbers to study our work. Not one of them can go away without carrying with him some impression of our organization, its usefulness and its humane spirit.

Respectfully submitted,

RUSSELL A. HIBBS, M. D.,  
*Surgeon-in-Chief.*

TABLE No. I.

Summary of New and Continued Cases, January 1, 1920, to December 31, 1920

## REPORT OF THE SUPERINTENDENT

*To the Board of Trustees of the New York Orthopaedic Dispensary and Hospital.*

.GENTLEMEN:

It affords me pleasure to submit to you my report for the year 1920.

The total expenses of the dispensary and hospital were \$224,555.84, or \$40,000.00 more than in 1919. The income for the year, however, was much greater than ever before, thus making it possible to run without a deficit.

The cost per patient day in the City Hospital was \$4.30, against \$3.30 of a year ago. The cost per treatment in the out-patient department was 95 cents, while that in 1919 was 74 cents. These increases are due largely to the high wages which it was necessary to pay in nearly all of the departments in order to secure employes, and to high prices paid for supplies, more especially during the first six months of the year.

The present hospital building has been in use for the past five years. In 1916, upon its opening, there seemed to be plenty of space and accommodation to carry on the work. The number of patients cared for in 1916 was 10,921, while 16,119 were treated in 1920, or 5,198 more than four years ago. Already, due to the growth of the work, we are cramped for room and require space for expansion in various departments, such as an added office for the Visiting Nurses' department; additional housing-places for history files; locker space, as well as a dining-room, for various non-resident workers, etc.

This year the quiet rooms on the ward floors have been used for private patients and, although these have served the purpose, they have been far too few and very inadequate. We are in urgent need of a pavillion in which to care for private patients and in which, at the same time, provision could be made for the added requirements previously referred to.

The hospital has cared for more patients this year than ever before, although the number of patient days was less than in 1919. The average length of stay in the hospital last year was 29 days. We are enabled to accomplish the hospital treatment of these orthopaedic cases in so short a period of time because of the excellent follow-up care provided in the re-visits of patients to the dispensary, the visits of the nurses to homes, and the convalescent treatment afforded at the Country Branch at White Plains. This means a great saving to the patient and allows the work of this hospital to be extended to many more persons.

The work has been carried on efficiently in all of the departments and great credit is due to the heads of the departments and to all of the workers. I wish to express my sincere appreciation of their loyal co-operation and the support which they have rendered.

I wish to acknowledge the great assistance given to us by: Robin's Nest, where 70 of our convalescent patients were cared for during last summer; The People's University Extension Society, which provides two teachers twice a week for occupational therapy work with the children; The Woman's Motor Corps of America; The Red Cross Motor Corps, and all of the Organizations, Societies and friends who have contributed so much toward the success of our work.

In conclusion, I wish to thank the members of the Boards of Trustees and Supervisors for their most generous assistance and advice.

Respectfully submitted,

THEODORA S. Root,  
*Superintendent.*

# TREASURER'S REPORT—NEW YORK ORTHOPAEDIC DISPENSARY AND HOSPITAL.

FREDERIC A. JUILLIARD, Treasurer

Financial Statement for 12 months ending December 31, 1920

## ORTHOPAEDIC GUILD REPORT

The Annual Report of the Guild is most encouraging. Our Active Membership at present is 45 and Associate 51, making a total of 96.

We regret the loss of our former President, Mrs. Dutton, who passed away in February, 1920. With the aid of the large fund received from the reading at Mrs. Alexander's residence, we were able to pay for three beds, and in addition provide the necessary articles for twenty beds. We have purchased a large amount of linen and clothing for our linen closet, and still have a good balance in bank.

Respectfully submitted,

FLORENCE B. FLEMING,

*Secretary.*

### GIFTS TO THE ORTHOPAEDIC GUILD DURING 1920

#### JANUARY

Miss Wells .....	\$10.00 for blankets
Mrs. Y. C. Moon .....	\$25.00 for blankets

## TWENTY-FIFTH ANNUAL REPORT OF THE ORTHOPAEDIC HOSPITAL SEWING SOCIETY

The Annual Report of the Orthopaedic Hospital Sewing Society, for the Year 1920, is encouraging and varies little from the report of the previous year, with the very pleasing exception of the addition of nine new members.

Mrs. Clark, the Chairman of the Working Committee, reports January 1, 1920, the number of :

Articles on hand.....	3,325
Number added during the year.....	370
	3,695
Number taken out for use.....	1,806
Leaving in the Linen Closet January 1, 1921.....	1,889

Again, we are indebted to Mrs. Clark for the faithfulness in the discharge of her duties as Chairman of the Working Committee, and her deep interest in the success of the society.

It is gratifying to note that we have lost none of our members during the past year, either through death or resignation.

Respectfully submitted,

KATHERINE M. LUCE,  
*Secretary.*

## **REPORT OF THE JUNIOR GUILD**

The Junior Guild provides garments for the three wards on the sixth floor, a bed in the Girls' Ward and makes donations to the Endowment, Ice Cream, Fruit and Potato Funds.

We have supported a visiting nurse for one year, and we also make her a monthly allowance for helping needy cases; we hope through her to enlarge our work and to provide clothing and help for the cases that she reports which are in want.

Respectfully submitted,

**URLING H. BENEDICT,**  
*Secretary.*

## REPORT OF THE SUPERINTENDENT OF THE COUNTRY BRANCH

*To the Trustees of the  
New York Orthopaedic Dispensary and Hospital:*

GENTLEMEN:

I have the honor to submit to you my report for the year 1920.

During the year sixty new patients were added to our roll, fifty-three discharged from it, and one lost by death—giving us a net gain of six patients at the end of the year. The patient days increased 2489 over any previous year, and although there was an increase in the total expenditures the cost per capita remained practically the same as that of last year.

Thirty-six children were sent by Dr. F. H. Knight, our consulting otologist and laryngologist, to the Manhattan Eye and Ear Hospital for operations and treatments. The improvement in some of the children was quite remarkable, and we wish to take this opportunity to thank both Dr. Knight and the hospital for their valuable service and co-operation in the care of our children.

The New York City Board of Education now has charge of our school. We feel that much will be accomplished by this change; that the child will benefit by instruction under a continuous system and that the school and the hospital working together can render the best service to the whole life of the child, not only here, but later, also, when he must necessarily return to his home.

A number of gifts have been made to us this year, and we wish to express our gratitude to all our friends—especially to Mrs. John A. Fry, who gave us a Dodge ambulance, which has been not only useful, but a source of great pleasure to the whole household. We wish, also, to thank the White Plains Y. M. C. A. for the services, every Saturday afternoon, of a leader for our

older boys—a leader who has taken them on picnics, taught them games, and has been to them an inspiration and an example.

Mr. Lissberger's gift of wheeled chairs has added much to the comfort of those of our children who could not otherwise get about; his gifts to all the children were hailed with delight, for who is there that does not love "a party?"

One owes a tribute to the members of the staff and employees whose real love for the children and whose loyalty to the hospital can ever be counted upon—whose co-operation enables us to look back upon something accomplished during the past year and to look forward with a hope of still further progress in the year to come.

Respectfully submitted,

STATIRA M. BRIDGMAN,  
*Superintendent.*

# NEW YORK ORTHOPAEDIC DISPENSARY AND HOSPITAL

420 EAST 59TH STREET

---

*Open from 1 to 3 P.M. Daily (Sundays and Legal Holidays Excepted)  
for the Reception and Treatment of Patients.*

---

OBJECTS OF THE INSTITUTION.—“To furnish treatment to the poor with special reference to the Diseases and Deformities of the Spine and the Hip Joints and other of the more serious diseases of the bones and joints requiring surgical and mechanical treatment, and for giving instruction in the same.” All cases of deformity, besides those mentioned, including Club Foot, Lateral Curvature of the Spine, Infantile Paralysis, Bow-Legs, etc., are received and treated.

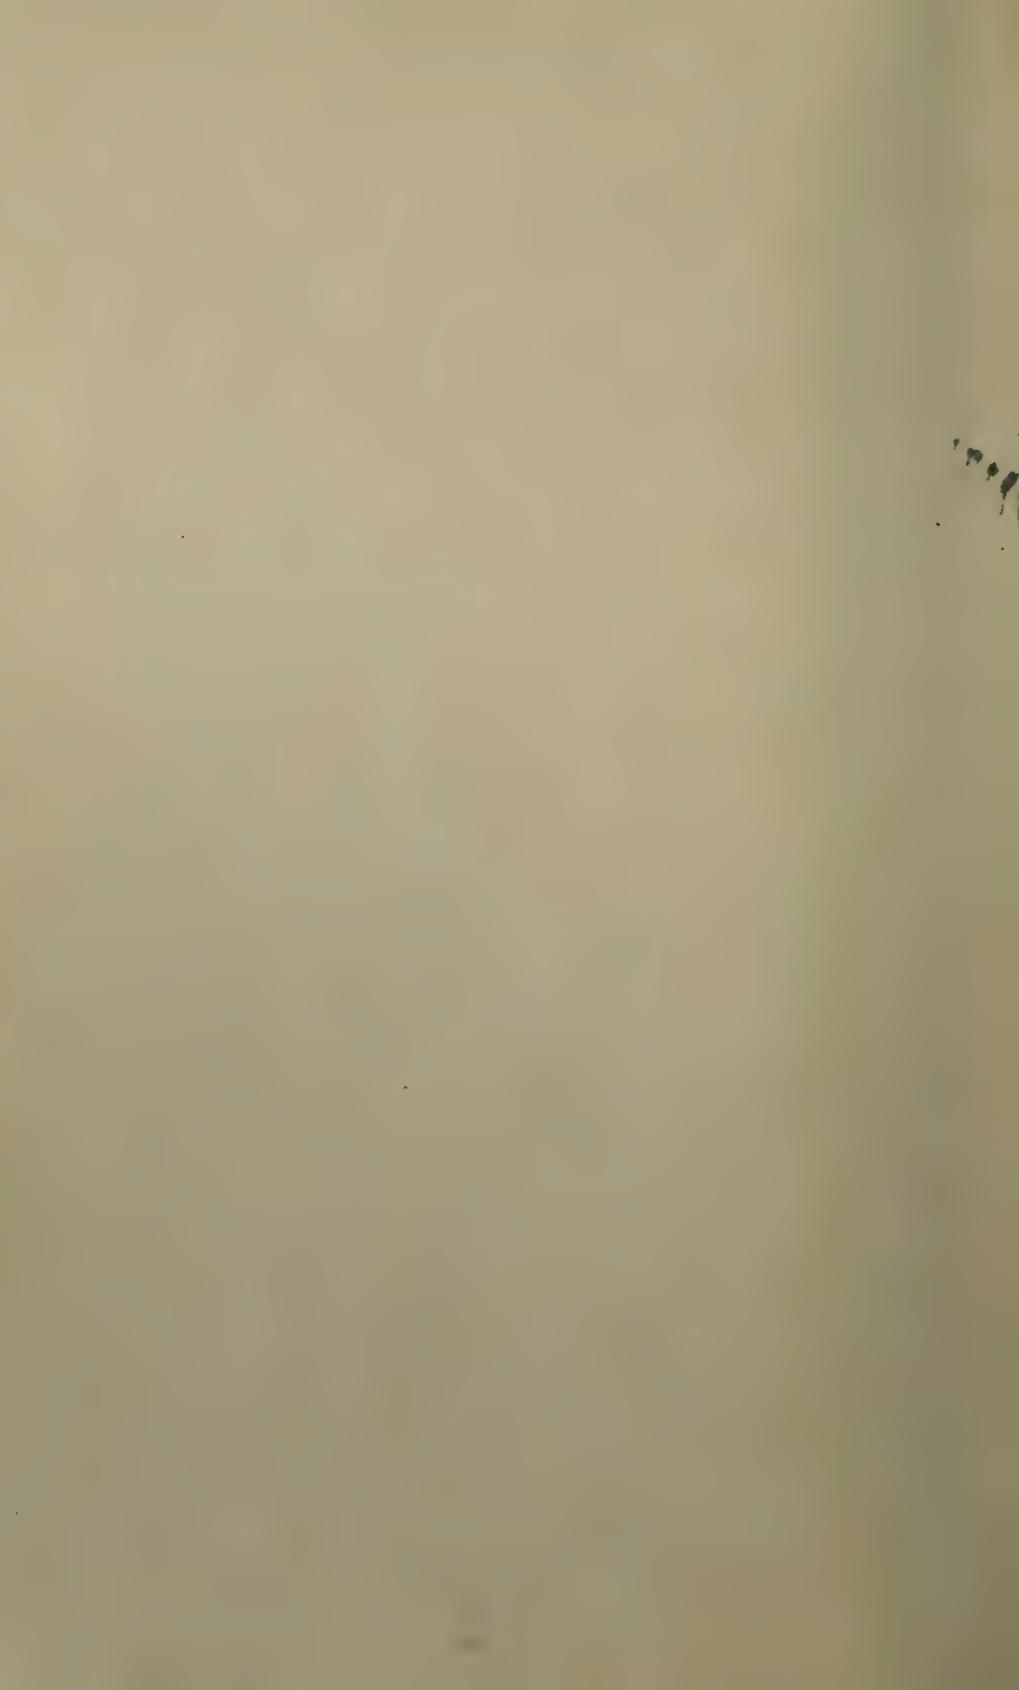

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE DISPENSARY DEPARTMENT.—Professional services are rendered gratuitously. Those who can afford to do so are expected to reimburse the Institution for the actual cost of apparatus. Payment for apparatus is received in installments, if required. Apparatus, however, is never *sold* to patients or others—the Institution reserving the right to remove the apparatus and discharge any patient not complying with the directions of the Surgeons. Apparatus will not be supplied in any case that does not come under the immediate care of the Institution.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE HOSPITAL DEPARTMENT.—Any suitable Orthopædic case may be admitted. Application for admission may be made to the Surgeon to the Hospital during the regular Dispensary hours.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE COUNTRY BRANCH AND INDUSTRIAL SCHOOL.—Applications for admission to this Hospital are made through the City Hospital, and only patients who are under treatment at the City Hospital will be admitted to the Country Branch.

THE MEDICAL PROFESSION and the public generally are invited to visit the Institution.

THE INSTITUTION is supported by the contributions of the benevolent. Contributions, which are earnestly solicited, may be sent to the Treasurer.

## REPORT OF THE PRESIDENT

*To the Board of Trustees and Board  
of Supervisors,*

LADIES AND GENTLEMEN :

As we approach the end of our hospital year it is obvious that this year, as in 1920, we shall find our expenses have been kept within our receipts, for which satisfactory result you will all share with me a deep sense of gratitude. This result has been secured by wise and careful management, by economy in all departments, and by faithful and earnest service on the part of the staff, the administration and the employees. Also in no small measure to the devotion of the Board of Supervisors whose helpful co-operation in the active management of the hospital means so much for its welfare and is a very important element in its strength.

We have had to deny ourselves certain things which would increase the scope of our activities, but we may safely say that the standard of the work done and the welfare of the many patients cared for in the Dispensary and Hospital, have not suffered. Rather have efficiency and economy gone hand in hand, a most gratifying combination.

In preparing the budget for next year, I believe that the showing we have made for these two years past can be continued, and while we shall have to meet larger expenditures in certain items, of which normal increases in the salary list must be kept in mind, there should be a reduction in the cost of commodities and supplies which will offset them. Therefore we may with safety omit the guarantee fund which has been so generously underwritten by the members of both boards for some years past and which has enabled this hospital to establish the enviable record of having kept always out of debt.

To cast off from this comfortable mooring may seem foolhardy, but I think not. Our friends and patrons, who

have supported us by their gifts in the past, will not desert us. People will the more willingly give to a solvent concern where every penny given will be used to continue and to forward a beneficent and useful work, rather than to an institution struggling to pay off old debts for which purpose gifts must be chiefly sought. This is a proposition which needs no argument.

In ways other than financial, we may view with satisfaction the result of this year's work. The year book when issued will give details and figures of the amount of work done in all departments, and for that reason I shall not burden this report with them. It can be said, however, that marked increases have occurred in the numbers treated in the Dispensary and in the Hospital. More out-patient work has been done; more operations performed; while the work of the Laboratory and X-Ray Department has greatly increased. In the brace shop alone is noted a decrease which is due to our having made an extra supply of braces and parts in 1920, which were not used until after the beginning of the year.

The State Board of Charities, as usual, places this institution in Class I, both as to plant and management.

The members of our two boards, not content to view the past and present with complacency will ask "what of the future? What does our hospital need which is now lacking?" My reply is, "The Private Pavilion." The arguments for and against this proposal have been thoroughly weighed and I believe that we are all agreed that our hospital not only with propriety may, but now should, undertake to offer our facilities to those who are able to pay for service, which heretofore has been denied them.

The few rooms used for this purpose in an experimental way have shown that this type of work may be continued and expanded without interfering with the main purpose of our organization, which is of a purely charitable character. Two generous members of our board have had this in mind when they purchased for the hospital the two lots adjoining on 58th Street. Plans have been prepared and studies for a

building which, supplementing the present plant, will provide 27 private patients with all needful facilities. The cost of this building will approximate \$200,000. Could this money be found it is not to be doubted that the receipts from such a building would more than cover expenses. It has been suggested that the two buildings on 58th Street be altered so as to house the employees of the hospital, and the rooms now occupied by them on the second floor be made over into rooms for private patients. Toward the cost of this work, one member of the Board of Supervisors has generously offered to give \$5,000. While such a plan would in some respects meet an urgent situation, it would be at best a makeshift, temporary in character, and would entail such difficulties in operation and administration as to render it almost impossible to give the kind of service our patients would have a right to expect. I leave with the Board, this matter of a private pavilion for their earnest consideration.

## COUNTRY BRANCH

Each year that part of the President's report dealing with the Country Branch records the continued and far reaching benefits of this splendid work made possible by the wise generosity of Miss Emily Watson. And what has been true in the past remains true today. The good that has been done by this branch of our work is immeasurable. Miss Watson, whose interest has never flagged and whose watchful care has shown her where needs could be met and improvements carried out, has this year added to her many evidences of interest and affection, by turning over to the institution cash and securities of a par value of \$900,000. Part of this sum is to be used for a building to house the employees and nurses, and work on this building has already begun. The balance of this gift is to be used for endowment. The Country Branch is thus established on a sound basis both as regards plant and endowment, and since the Trustees are entirely relieved of financial anxieties surrounding this part of our work, we want Miss Watson to feel she may confidently

expect of us the conscientious performance of our duties as guardians of this trust.

On behalf of the Trustees I take this opportunity of expressing our deep sense of gratitude for her abundant and far reaching generosity.

In closing I wish to testify to the loyal co-operation and faithful work of the Staff, the Administration and the Employees and to express my thanks therefor, and to the Trustees my deep appreciation of their confidence.

Respectfully submitted,

ROBERT S. BREWSTER,  
*President.*

## REPORT OF THE BOARD OF SUPERVISORS

*To the Trustees of the New York Orthopaedic Dispensary  
and Hospital,*

GENTLEMEN:

We have the honor to present to you the report of the Board of Supervisors.

During the past year the Board has suffered a great loss in the death of Mrs. M. Dwight Collier.

At the April meeting the following Resolution was presented and unanimously adopted:

*Resolved*, That the Board of Supervisors realizes with deep sorrow the loss they have sustained in the death of

MRS. M. DWIGHT COLLIER

who had served as a Supervisor since 1885, being the doyenne of the Board.

Always a faithful, devoted friend and benefactor, ready at all times to undertake the most difficult tasks, ever giving of her best and encouraging by her cheerful sympathy and interest those who were associated with her.

*Further Resolved*, That a copy of this Resolution be sent to the family of Mrs. Collier.

We wish to take this opportunity of thanking our friends and benefactors for the support and encouragement we have received during the past year. Owing to the wonderful spirit of co-operation which has so generously been shown us we have been able not only to continue our former activities but to add materially to them.

We turn to our auxiliary societies with deep gratitude.

The Orthopaedic Guild has supported three free beds and has continued to supply the linen and clothing for the two girls' wards.

The Orthopaedic Hospital Sewing Society has given the linen used in the Hospital, and donations of blankets, etc., thus relieving a very heavy expense.

The Junior Guild has supported a visiting nurse and given the necessary clothing for the babies' wards, also endowed an annual free bed.

The work of these societies has increased enormously of late years following that of the Hospital, and we are proportionately indebted to them.

Mrs. Charles M. Brooks and her admirable committee from the Church Women's League for Patriotic Service have continued to make the bandages and any necessary dressings used in the Dispensary. We cannot express too heartily our thanks for their zeal and interest. The work of these ladies meets an urgent need and relieves a very difficult situation.

A new activity was inaugurated during the year under the auspices of the Orthopaedic Guild ,Mrs. C. C. Overton, one of their members, organized the Orthopaedic Hospital Red Cross Unit to make surgical dressings for the hospital.

From the first meeting, March 7th, over seventy thousand dressings have been made. The work room was open all summer and, we are glad to say, has become a permanent institution. It is impossible to estimate the actual help of such a service or the assistance it brings in solving one of the serious hospital problems of the day.

These two activities are the result of the initiative of the ladies who inaugurated them, moved by a noble spirit of loving service, and the success they have attained is a reward which must be deserved to be understood.

Our appreciation and gratitude cannot be too strongly expressed.

We owe the continued support of our Visiting Nurses to the generosity of those to whom we were indebted for it last year: To Mrs Charles B. Alexander, Mrs. Robert S. Brewster, Mrs. Henry White, Mrs. Whitelaw Reid, Mrs. A. Murray Young, Mrs. Frederic Vanderbilt, the Junior Guild, and five to a fund given for the purpose to Dr. Hibbs by Mrs. Louis B. Preston.

We find no words to express our gratitude for this wonderful benefaction. The records of our institution testify to the enormous advantage these nurses are to the surgeons' work, and how many permanent cures are due to this after care of the patients.

Miss Caroline White continued her generous support of a special masseuse.

The Occupational Therapy classes were carried on in the wards for a short time to the great enjoyment of the children, helping to keep them occupied and happy, owing to the kindness of the People's University Extension Society, who sent the teacher and to the generosity of Mrs. Dickey who gave the supplies.

We have very encouraging reports from our school work. Pupils returning to Public Schools continue to re-enter their grades, in some instances enter a higher one, and the children themselves show great appreciation of the help given them. Many foreign children who have been only a few weeks in the country show a strong desire to learn and their progress has been extremely encouraging.

As this branch of our work is entirely dependent on private subscriptions we commend it to the generosity of our friends and beg that they will endorse it and help us carry it on.

Through the interest of Mrs. Howard Carroll, a member of the Orthopaedic Hospital Sewing Society, the children were given the benefit and pleasure of a visit to the country during the summer. The fresh air and convalescent home, Robins Nest, at Tarrytown, is open for six months and cared for thirty-five of our patients twice during the summer; seventy children have enjoyed this privilege for two successive years. We appreciate extremely the generosity and kindness shown our little wards.

Christmas was as happy and joyous this year as ever it was in the past. It has always been a great object with us to make Christmas in the Orthopaedic Hospital a day full of happy memories and when we feel that this has been ac-

complished it is a very happy memory for us. Our friends contributed most generously and with thoughtful plans that all might have a share in the pleasure of the day.

Christmas stockings were given to every child in the hospital. To the babies by the Junior Guild, to the girls by the Orthopaedic Guild, to the boys by the Church Women's League for Patriotic Service. Mrs. White gave a present to each patient and a book to each nurse. Mrs. Young and Mrs. Brewster gave trees for each ward and presents for each patient, also presents for one hundred dispensary patients. Mrs. Tilford and Mrs. Pyne gave presents for two hundred more dispensary patients. Mrs. Warren gave turkeys and Miss Frelinghuysen and Mrs. Pyne ice cream and cake for the Christmas dinner, and Mrs. Tilford candy for the nurses. Mrs. Dickey gave beautiful holly to decorate the hospital. Mrs. Talmage, Miss Hamilton, Mrs. Douglas Robinson and Mrs. Brewster gave the maids presents. Mrs. Choate, Mrs. Murray and Miss Hamilton gave the nurses a theatre party.

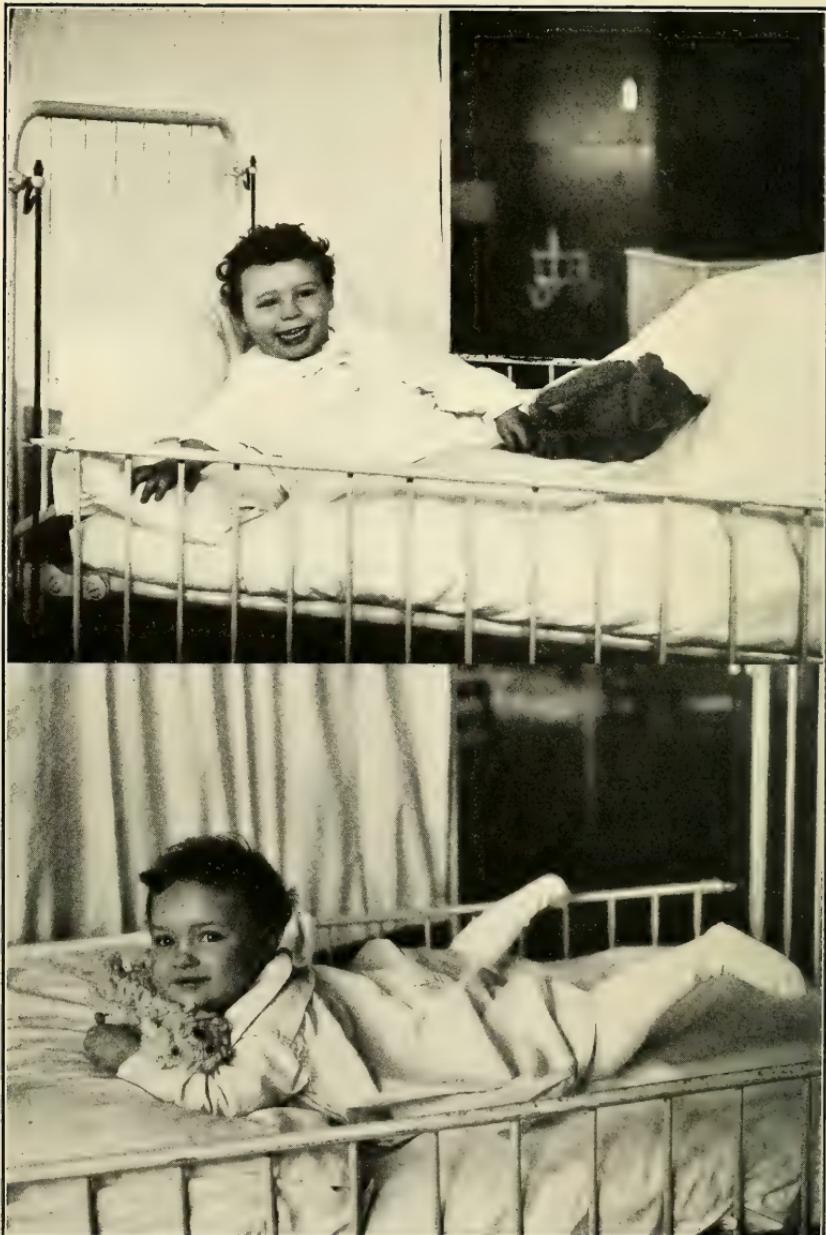

One hundred and fifty families were given Christmas dinners, and many gifts were received from others not directly connected with the hospital.

As we look back on the year as it closes a deep sense of gratitude fills our hearts for what has been accomplished. For the suffering which has been relieved, for the lives which have been restored, the heavy burdens removed, for the part we have been allowed to play in helping towards it all, and for the loving kindness of our friends. And we appeal to them again to lend us their support in the full confidence that it will be given, and the work of restoration go on and increase and make life worth while to many of those to whom all hope of usefulness and joy of living seemed to have been denied.

Respectfully submitted,

ELIZABETH STEWART HAMILTON,  
*Secretary.*

## REPORT OF THE SURGEON-IN-CHIEF

*To The Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

During the year ending December 31, 1921, the total number of patients treated in the institution was 18,400. Of this number 8,611 were new cases, and the remainder were those continued under treatment from last year. This is an increase of 2,281 over the number treated during the previous year. Of these 1,476 were suffering from joint and bone tuberculosis; there were 5,753 deformities of the feet and 811 non-tuberculous deformities of the spine; 955 rachitic deformities; 2,167 cases of paralytic deformities and 7,238 suffering from a variety of deforming diseases. For details, see Table I.

Table No. II shows the results of treatment. 1,133 were discharged, cured; 3,687 were relieved, making a total of 4,820 individuals sufficiently improved to require no other treatment. Twenty-five were discharged incurable; 85 for neglect, and 61 died; 3,656 had no treatment after the first visit and were discharged, while 9,753 were continued under treatment at the end of the year.

Table No. III gives in detail the work performed in the treatment of these patients. The total number of visits made by patients to the Dispensary was 85,256; the total number of visits made to patients at their homes by nurses was 26,631, making the grand total of visits 111,887. This makes an average of 369 visits per day for the entire year. It is important to note in connection with this table that the 6,965 patients who were visited at home by our visiting nurses were in a sense hospital patients.

Table No. IV is a detailed report of the work done in the manufacture of braces. The number of new instruments made was 5,295 and the number repaired was 7,635.

CITY HOSPITAL—The number of patients in this hospital on January 1, 1921, was 83; the number admitted during the year was 913; the number discharged was 905; 4 died, and the remainder 87, were continued under treatment on January 1, 1922. The average number of patients in the wards every day during the year was 85, and the average duration of the stay of each patient was 31 days. The number of days of free care in the wards was 19,429 and the number of days of pay care was 11,769.

The operative table is No. VI. The number of patients operated on was 890, and the total number of operations was 1,293.

COUNTRY BRANCH—The number of patients in the hospital on January 1, 1921, was 134; admissions during the year 50. There were 52 discharged and none died, leaving 132 on January 1, 1922.

This brief statistical statement of the past year's activities gives a very poor idea of the humanitarian and scientific interest involved in the study of 18,400 people seeking relief in our institution. There are so many aspects of the work of very great interest that with so little time to consider them, it is difficult to determine which is the most important and to which to call your attention. None, perhaps, is of greater importance than our new department for the study of end results, which has been in operation during the past year. We have thus far seen the end result in 1,147 cases; 380 cases of tuberculosis of the spine, hump back; 200 of congenital dislocation of the hip; 210 cases of different types of deformities of the foot; 110 cases of lateral curvature of the spine; 22 cases of fracture of the spine; 40 cases of fracture of the thigh; 50 cases of tuberculosis of the knee joint; 45 cases of deformities of the legs from rickets; 50 cases of wry neck; 30 of acute suppurative arthritis of the hip, a disease of infancy; 50 cases of torticollis, and we are continuing and the numbers will increase because we are covering a period of many years, in order to make some estimate of the value of our surgical efforts in the cure of disease. We are doing year by year a large amount of surgical work, and the organization is so pressed in the detail of its perform-

ance that we are rarely able to thoroughly estimate its value. As a matter of fact, this is a defect in almost every hospital organization. Not only will such a review be of immense value to our own staff, but, in its final publication, may be suggestive to other services and similar institutions. This department, I hope, will some day be an established detail in our organization.

The activities in the city hospital have been as great as are possible with the number of beds and the size of the staff, and there were 171 patients waiting for beds at the close of the year.

There are many interesting things in connection with this year's service here and among them I may call your attention to the fact that 128 operations were done upon the spine, all of them for very serious disease and deformity, which ten years ago were considered incurable and inoperable. These cases were all among children and young adults who are definitely and permanently cured.

The perfection of diagnostic methods has opened up an entirely new field of surgery in fracture of the spine, and during this year we have operated on twelve such cases in the wards. In this connection it might be interesting to note that we have treated in our out-patient department 679 cases of fracture.

There were 1,627 cases of infantile paralysis treated in the dispensary during the year. This disease, as is well known, often leaves children permanently crippled, making surgical problems in each instance that last during the developmental period, or until adult life.

The Country Branch continues its service to children suffering from joint tuberculosis, and it is one of the few institutions in this country making any definite and sure impression in solving the problem of the child suffering from joint tuberculosis. Here these children are received early in disease and kept until they are cured, which is both wise economy and good humanity, as the alternative is not death, but years of uselessness and suffering, a financial burden to their families and the surgical organizations of the city.

We still lack in this connection a completed organization, as we have no provision at the Country Branch for the young adult who is suffering from joint tuberculosis. This need we have been considering during the past year, and it is to be hoped that it will not be long before we have facilities there for caring for these patients.

Another pressing need is that of a private pavilion, as it does not seem fair that such a surgical organization as we have here developed should not be of service also to those who are able to pay for their care.

The revolution that has taken place in this department of surgery cannot be illustrated any better than by noting the difference in the duration of the stay of the patient in the hospital now as compared with twenty-five years ago. Last year it was 31 days, and in the former period often for as long as five years. This revolution has been due to many things, among them the perfection of our surgical organization and methods, as well as the different attitude of mind toward the person suffering from chronic disease. Some progress has been made in bringing enthusiastic surgical interest into the treatment of chronic sufferers which has always been given to those suffering from acute disease. As this is done, we find that such patients are as surely curable as those suffering from acute disease, although not so quickly. The danger to the chronic cripple is not that his surgical condition is not responsive to treatment, but that our methods may not be adjusted to his needs.

The educational work of the institution, in so far as the students of the College of Physicians and Surgeons are concerned, has gone on during the past year much as in previous years. During the whole college year the students, in small sections, are taught in the institution four mornings a week, where they get close personal contact with the patients and learn, I hope, something of the diagnosis and the needs in the treatment of the chronic sufferer. This work is done for the fourth year students. In the third year they have an intensive course in anatomy, given by the clinical instructors, and this is co-ordinated with a course of lectures on

the various diseases and deformities with which we have to deal. These courses are all compulsory for both the third and fourth year students, so that as the years go by it is believed that the attitude of mind of the profession will be changed in regard to all this great number of afflicted people.

Respectfully submitted,

RUSSELL A. HIBBS,  
*Surgeon-in-Chief.*

TABLE No. I.

Summary of New and Continued Cases, January 1, 1921, to December 31, 1921

## REPORT OF THE SUPERINTENDENT

*To The Board of Trustees of the New York Orthopaedic Dispensary and Hospital.*

GENTLEMEN:

I present herewith my report for the fiscal year ending December 31st, 1921.

The work has progressed very satisfactorily, and there have been minor accomplishments of re-arrangement and improvement during the year. The ever increasing demand for service in order to maintain a high standard, presents one of the difficult problems of our growth and advancement.

It is a noteworthy fact that the large increase in the number of patients who have received treatment in this institution during 1921 has exercised a proportionate influence upon the activities of every department, large and small, and every facility of the Dispensary and Hospital is being utilized to its utmost.

The daily per capita cost has decreased from \$4.30 of last year to \$4.28 for the city hospital, and for the country hospital from \$2.00 to \$1.96, thus making the per capita daily cost for the combined hospitals \$2.79. The wide difference in the running cost of these two institutions demonstrates how much cheaper it is to provide for the convalescent care of patients in a separate country hospital, established for that purpose, rather than to keep them for a long period of time in the active surgical hospital.

The operating expenses for the Dispensary and Hospital for the year were \$224,135.82, only \$5,364.82 over 1920, a difference which is wholly accounted for by the increase in the amount of treatment given.

The bed days can increase but little, as our beds are almost always occupied, with the exception of the Sunday which intervenes between the Saturday of discharge and the Monday of

admission. This seems unavoidable, on account of our long waiting list, which renders definitely established admission days a necessity.

The wave of unemployment which has swept over the country, more especially during the latter portion of the year, has made itself manifest in the affairs of the institution by the high percentage of free admissions to the wards, a circumstance due in most instances to the fact that the breadwinner of the family has been unable to secure work. On the other hand, it has been much less difficult to obtain nurses and other employees to carry on the work of the hospital.

As a result of the increase in the dispensary attendance, the work in the history library has increased, and it has become necessary to augment the clerical force. A history revision clerk has also been added there.

The visiting nurses' service, which embraces the admission desk, assists the surgeons in the dispensary treatments, and through its field division visits the patients and cares for them in the home (thus obviating a long hospital stay), carries a heavy burden of the work. Its value in the aftercare cannot be overestimated.

The department of massage and corrective gymnastics is filled to capacity the greater part of the time, and the same excellent work is being done there as in former years.

In the laboratories of roentgenology and pathology, the growth and extent of the work is evident, as elsewhere. A new unit and a Buckey Diaphragm have been installed in the former. As definite differential diagnosis becomes more dependent upon the pathological laboratory, the amount of routine work and special tests continues to grow noticeably in volume and in the importance of the relation to the clinical work of the institution.

The hospital has been fortunate in its house staff of young doctors who have come to us after completing internships in general hospitals, and who are alert and interested alike in the welfare of the patient and in the study of this department of surgery, and who are also appreciative of the opportunities available.

The nursing personnel has undergone but few changes and additions, and the duties on the wards and elsewhere are performed efficiently.

In the matter of surgical equipment, the usual additions and replacements, only, have been made, save for a new anethetometer, a gas-oxygen machine, which was purchased last August.

A new department for the study of end-results has been established, which is to embody a study of the cases seen in this dispensary and hospital during the past twenty-five or more years. This is being carried on by two of the surgeons who recently completed internships in this institution, with clerical and editorial assistance. It is hoped that this department will, in time, also prove a valuable adjunct to the hospital as a means of recording its successes and failures in diagnosis and treatment.

In the housekeeping department, some additions have been made in the total number of the employees. It has been less of a problem this year than last to fill the vacancies occurring with a desirable type of person. The usual replacements have been made here also.

In the brace shop, a new milling machine has been installed, to be used in the manufacture of braces, which will be a saving in hand labor. Men are now being employed in the brace shop sewing room for the leather work and the finishing of braces.

So far as the engine room equipment and the machinery and tools in general are concerned, the new requirements have not been great. New turbines were found necessary for the boilers; elevator cables have been renewed, batteries moved and replaced.

Throughout the building the usual amount of repairing and necessary decorating has been done.

I would be unappreciative if I did not pay tribute to the splendid spirit of enthusiasm, understanding and earnest effort of the officers and workers, both lay and professional, that has aided so largely in the advancement of the interests of hospital and patient, rendering it increasingly possible to give better and more individualized service to the cripple.

We are deeply indebted to our friends, organizations and individuals, and to volunteers who have helped in the care of the patient; to the donors and large number of contributors whose material aid has been so great a factor in our work, and to the generous public.

To the Trustees and Supervisors for their encouragement and support, I am most grateful.

Respectfully submitted,

THEODORA S. ROOT,  
*Superintendent.*

# TREASURER'S REPORT—NEW YORK ORTHOPAEDIC DISPENSARY AND HOSPITAL

## DONATIONS FOR SPECIAL PURPOSES

January 1, 1921 to December 31, 1921

### Special Salary Fund:

Mrs. William Averill Harriman, for two assistants in Gymnasium .....	\$1,200.00
Mrs. Lewis B. Preston .....	5,000.00
Miss Caroline White, massage .....	700.00

### Visiting Nurses' Salary:

Mrs. Charles B. Alexander .....	1,500.00
Mrs. Robert S. Brewster .....	750.00
Junior Guild .....	1,550.00
Mrs. Whitelaw Reid .....	1,500.00
Mrs. Frederick W. Vanderbilt .....	3,000.00
Mrs. A. Murray Young .....	1,500.00
Mrs. Henry White .....	1,500.00
Mr. Frank L. Polk .....	50.00

### School Fund:

Mrs. Charles B. Alexander .....	100.00
Mrs. Robert S. Brewster .....	25.00
Mrs. Joseph H. Choate, Jr. .....	20.00
Mr. R. Fulton Cutting .....	35.00
Mrs. David T. Dana .....	10.00
Mrs. Charles de Rham .....	10.00
Miss Elizabeth S. Hamilton .....	30.00
Mrs. Percy R. Pyne .....	25.00
Mrs. Henry M. Tilford .....	100.00
Mrs. H. McK. Twombly .....	50.00
Miss Caroline White .....	60.00
Mrs. Henry White .....	50.00
Mrs. A. Murray Young .....	50.00

### Christmas Gifts and Cheer for Hospital and Dispensary:

Mr. Robert S. Brewster .....	162.45
Mrs. Robert S. Brewster .....	80.00
Mrs. Joseph H. Choate, Jr. .....	12.50
Mrs. Charles D. Dickey .....	31.50
Little Olga Tomich .....	3.65
Miss Alice K. Haigh .....	5.00
Miss Elizabeth S. Hamilton .....	40.00
Dr. Ross H. Keith .....	10.00

Kiwanis Club .....	12.00
Mr. R. Leibner .....	5.00
Mrs. Lucia A. McCormick .....	10.00
Mrs. Stafford McLean .....	25.00
Mrs. J. Archibald Murray .....	12.50
Mrs. R. C. Newton .....	10.00
Mr. R. H. Pettigrew .....	2.00
Mrs. Percy R. Pyne .....	100.00
Mrs. Whitelaw Reid .....	15.00
Mrs. Douglas Robinson .....	25.00
Mrs. Edward T. H. Talmage .....	25.00
Mrs. Henry M. Tilford .....	104.30
Mrs. Henry White .....	100.00
Mrs. A. Murray Young .....	122.60

**Christmas Dinners for Dispensary Families:**

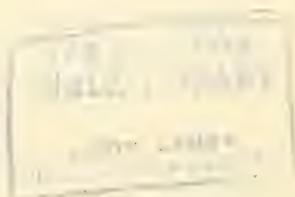

Mrs. Charles B. Alexander .....	25.00
Mrs. Charles de Rham .....	25.00
Miss Elizabeth S. Hamilton .....	25.00

## ORTHOPAEDIC GUILD REPORT

It is very gratifying to the members of the Guild to know that the work accomplished during the past year far exceeds the work done in any previous year. The active membership is 41 and the associate 51, making a total of 92. We have paid for three beds, representing an expenditure of \$1,050 (one thousand and fifty dollars) and in addition have provided the necessary articles for 20 beds. We have also kept our closets well filled with clothing, linen, blankets, etc. Mrs. Overton established "The Red Cross Orthopaedic Guild Unit" for the purpose of making surgical dressings for the hospital which were greatly needed. The work was done under the supervision of Mrs. Overton, and she has made during the past year 52,915 dressings, and expects to continue her good work. A Bridge Tournament was held at the residence of Mrs. Blair for our Guild, at which time they realized \$525. A vote of thanks was given by the members of the Guild to the ladies who so kindly filled the places of the President and Secretary during their absence in California.

Respectfully submitted,

FLORENCE B. FLEMING,  
*Secretary.*

**GIFTS TO THE ORTHOPAEDIC GUILD  
DURING 1921**

## TWENTY-SIXTH ANNUAL REPORT OF THE ORTHOPAEDIC HOSPITAL SEWING SOCIETY

The Annual Report of the Orthopaedic Hospital Sewing Society, for the year 1921, varies little from the report of the previous year.

Mrs. Clark, the Chairman of the Working Committee, reports January 1st, 1921:

Articles on hand .....	1,889
Number of articles added during the year.....	4,126
	6,015
Number of articles taken out for use.....	3,473
Leaving in the Linen Closet January 1st, 1922.....	2,542

Again we are indebted to Mrs. Clark for her untiring efforts and deep interest in the success of this society.

It is with regret that we report the loss of two members, one through death and one through resignation.

Respectfully submitted,

KATHERINE M. LUCE,  
*Secretary.*

## ORTHOPAEDIC HOSPITAL SEWING SOCIETY

Babies' Clothes .....	Mrs. J. H. Harper, Jr.
Babies' Clothes .....	Mrs. M. Sawin
Small Electric Battery .....	Miss M. Valentine

## **REPORT OF THE JUNIOR GUILD**

The Annual Report of the Junior Guild is encouraging as the work grows a little each year. The Guild supports a bed in the Girls' Ward, supplies clothing for the three wards on the sixth floor, giving them also Christmas stockings and ice cream and cake for Easter. Donations are made to the different funds.

A visiting nurse is provided by the Guild and she is given an allowance to spend on cod liver oil and other necessities for special cases who cannot afford to buy them. Clothing is also given her for distribution.

We hope to continue our activities during the coming year.

Respectfully submitted,

URLING H. BENEDICT,  
*Secretary.*

## REPORT OF THE SUPERINTENDENT OF THE COUNTRY BRANCH

*To The Trustees of the New York Orthopaedic  
Dispensary and Hospital.*

GENTLEMEN:

It is my privilege to again submit to you the report of the work in the hospital for the past year.

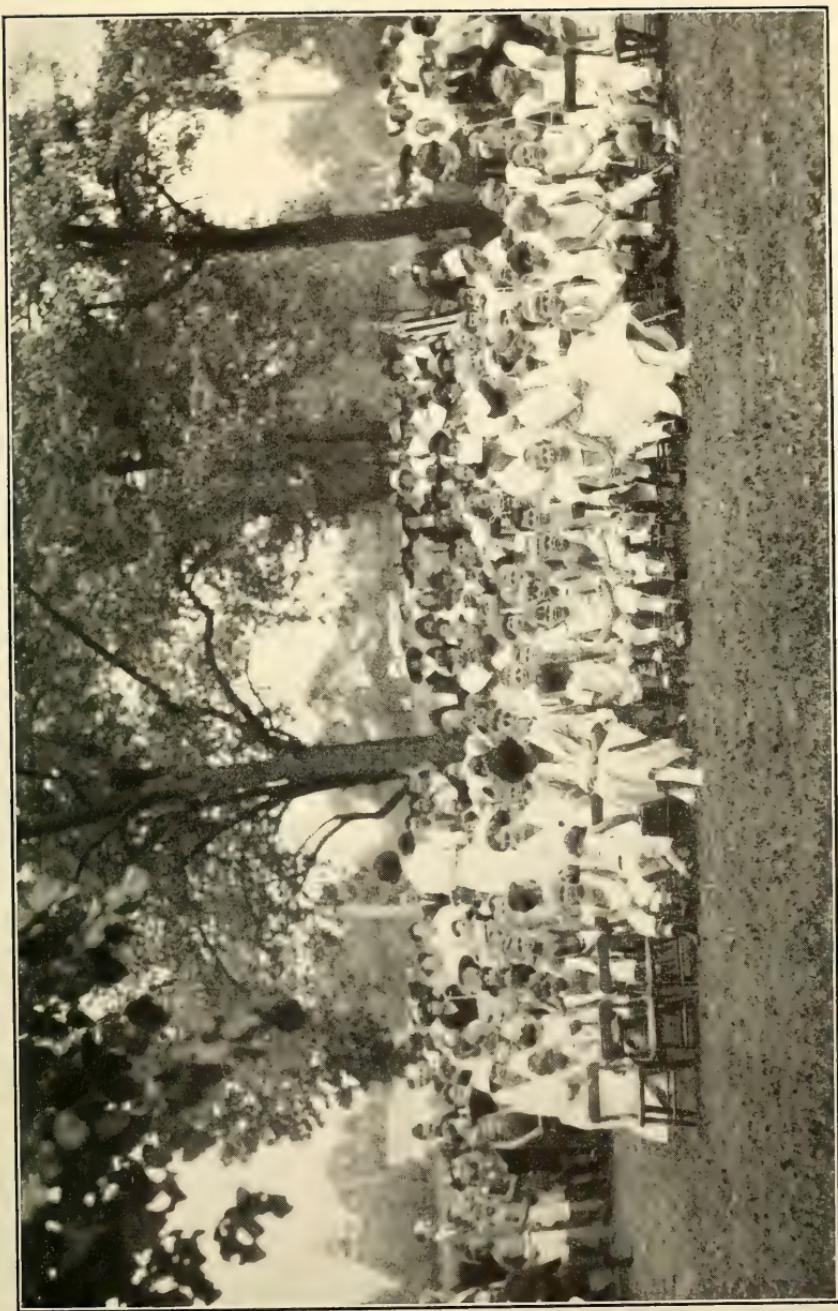

Table VII gives the complete statistics for the year.

As the character of our work has changed during the past few years, we have found it difficult to do as truly efficient or as high a quality of work as we desired on account of the physical limitations of our plant. Miss Watson, who has ever kept closely in touch with the work of the hospital, has realized this and during the past year has adequately increased the endowment fund, and in addition has made possible, improvements in our plant that will cause many of our present difficulties to soon disappear.

A new dormitory for nurses and employees, so planned that its usefulness is elastic, is now in process of construction. It adds no more to our housing possibilities but will replace conditions of which we are not proud and will enable the institution to care equally well for its patients and workers.

The laundry has been improved by the installation of two new motor driven washing machines.

Plans are completed and changes soon to be made to add to the size and efficiency of the kitchen. An enlarged and improved employees' dining room is also soon to be a realization. The nurses' living room has been redecorated and refurnished.

While the per capita cost seems to have been lowered, in reality this has not been accomplished, as the teachers are now supplied by the Board of Education. We gratefully appreciate the service rendered by the Board and wish to thank Mr. Lewis for his interest and co-operation in our work.

Early in May members of the White Plains Elks Club motored ninety-eight of the children to Bronx Park for luncheon and a never-to-be-forgotten day. The White Plains Y. M. C. A. continues to help us with our boys and Mr. Lissberger always remembers the children on holidays. We wish to take this opportunity to thank them, and all our friends, whose thought for and devotion to the hospital is an inspiration to us all to do our best.

Respectfully submitted,

STATIRA M. BRIDGMAN,  
*Superintendent.*

for the Reception and Treatment of Patients*

---

OBJECTS OF THE INSTITUTION.—“To furnish treatment to the poor with special reference to the Diseases and Deformities of the Spine and the Hip Joints and other of the more serious diseases of the bones and joints requiring surgical and mechanical treatment, and for giving instruction in the same.” All cases of deformity, besides those mentioned, including Club Foot, Lateral Curvature of the Spine, Infantile Paralysis, Bow-Legs, etc., are received and treated.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE DISPENSARY DEPARTMENT.—Professional services are rendered gratuitously. Those who can afford to do so are expected to reimburse the Institution for the actual cost of apparatus. Payment for apparatus is received in installments, if required. Apparatus, however, is never *sold* to patients or others—the Institution reserving the right to remove the apparatus and discharge any patient not complying with the directions of the Surgeons. Apparatus will not be supplied in any case that does not come under the immediate care of the Institution.

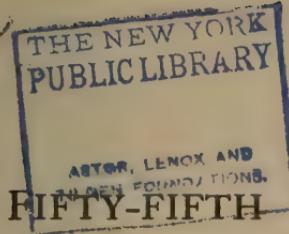

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE HOSPITAL DEPARTMENT.—Any suitable Orthopaedic case may be admitted. Application for admission may be made at the Hospital during the regular Dispensary hours.

RULES GOVERNING THE ADMISSION OF PATIENTS TO THE COUNTRY BRANCH AND INDUSTRIAL SCHOOL.—Applications for admission to this Hospital are made through the City Hospital, and only patients who are under treatment at the City Hospital will be admitted to the Country Branch.

THE MEDICAL PROFESSION and the public generally are invited to visit the Institution.

THE INSTITUTION is supported by the contributions of the benevolent. Contributions, which are earnestly solicited, may be sent to the Treasurer.

SHOWING LOGGIAS OFF THREE WARDS

## REPORT OF THE PRESIDENT

*To the Board of Trustees and the Board of Supervisors,*

LADIES AND GENTLEMEN:

While we have not yet quite reached the end of the year and the financial and statistical matter has still to be definitely assembled and tabulated, nevertheless the past twelve months indicate what has been accomplished. It is my purpose in this annual report to refer in a general way to the record of the past year and to submit for your consideration suggestions for the future.

On the financial side we may congratulate ourselves that in all likelihood the year will close without a deficit. For the eleven months ended November 30th, expenditures have exceeded receipts by \$2,857.57. I believe, however, that this will be made up during December through donations and ordinary receipts, but if it is not fully recovered it will be quite permissible to draw on the reserve fund carried over from last year. An analysis of the Treasurer's statement shows a falling off in certain major items of receipts, i. e., for braces, for board and special funds. Of the two former it is not likely that our income from these sources will increase next year, because the development of our surgical work tends to a certain extent to reduce the use of braces and mechanical aids of that character, and because of a change in the policy of extending municipal aid to the hospital as heretofore; the City refusing to pay for care in our institution while beds are available in the various city hospitals. Explaining that patients sent to us are in need of a highly specialized treatment, not obtainable in the city hospitals, has as yet been ineffective in modifying the rule adopted. The falling off in the item Special Funds is due to the non-receipt of a very substantial gift from an individual which was omitted this year, but

which it is hoped we may receive in 1923. Offsetting these losses we note a large increase under the item Donations, of which a large part is the gift received this year from the United Hospital Fund.

The amount received from this source has thus become an important factor in the support of our work, and that we acknowledge and appreciate this is shown by the activities of the Board of Supervisors in raising money for the Fund and the willingness of the members of the Board of Trustees to constitute a team during the annual collection week of the United Hospital Fund.

At the January meeting the budget for next year will be presented. I believe that it will provide for a continuance of our work on the high standard established, and I hope provision may be made for increased expenditures in certain departments without impairing our sound financial position.

The surplus which will be carried over this year in the income account of the Country Branch will not recur indefinitely. It is due in large part to Miss Watson's gift of \$500,000 made last spring to build, equip and endow an addition to the plant at White Plains, where older children and adolescents can be treated. Plans for this building are being prepared and are receiving final and careful study. It is expected that contracts will be let and the building started early in the new year. In the meantime Miss Watson's most generous gift has been temporarily invested and the Country Branch income increased by a considerable amount. This condition will, of course, adjust itself, and the income from endowment more nearly approximate the expenses of the Country Branch, allowing a reasonable and proper provision for upkeep, renewal and repairs.

Our investment in buildings at White Plains has now become so important that it seemed wise this fall to accept an opportunity of acquiring more land so as to provide proper facilities for future needs, such as possible extensions, playgrounds, isolated pavilions and the like. About twenty acres immediately adjoining our property on the north were purchased. This parcel comprises meadow land, woods and a

dwelling house and outbuildings, and will enable us to enlarge and extend our facilities as need arises.

To cover adequately the work done for the children in our care this past year, would extend this report beyond its proper bounds; nor is it necessary to review what is familiar to you. The Surgeon-in-Chief in his monthly reports and by his personal guidance through the hospital, which we have all availed ourselves of, has kept us informed of the splendid work that he and his assistants are doing, and I think it can be truly said that few institutions have a Board of Managers so deeply interested in, and so intimately in touch with the conduct and progress of the work, as we of the Orthopaedic Hospital. A comparison of the figures for past years shows how the work increases. In practically every department we notice an increase this year. Just how soon we shall reach the limit of our facilities remains to be seen, but when the new hospital was planned and built it was hardly anticipated that it would be taxed to capacity so soon.

These conditions bring their problems—of management and of administration. That these problems have been solved and the work conducted efficiently with a spirit of co-operation and willing service is due to the active interest of the Board of Supervisors, and to the character and ability of the Superintendent and her staff. This spirit of earnest, devoted service is as marked in the Country Branch as in the City hospital and I wish to express to Mrs. Bridgman and Miss Root and their associates the appreciation of the Board.

Last year in my annual report I spoke of the need of a private pavilion for pay patients. This year I had hoped to place before you a plan for such a building and definite recommendations as to how such a building could be secured. Plans of a tentative character have been prepared by the architects of the hospital, but a study of the subject brings up many questions not easy to answer. The financial problem is not the only difficulty. The proper location of the building, most beneficial for the patients and most acceptable from the administrative side; the proper size, the right number of rooms on each floor for economical and effective man-

agement, all render the subject complex. These problems can be solved, however, and I believe, too, that the money to build the building can be raised. A private pavilion such as we ought to have will mean a large initial outlay, not less probably than \$250,000, not more, I hope, than \$300,000. The want of a private pavilion is felt by us all, the propriety of changing the character of our work so as to include this service is recognized by us all. Ought we not, therefore, to make this our chief object to strive for this coming year? I urgently recommend it.

Respectfully submitted,

ROBERT S. BREWSTER.

*President.*

December 14, 1922.

## **REPORT OF THE BOARD OF SUPERVISORS**

*To the Trustees of the New York Orthopaedic Dispensary  
and Hospital,*

**GENTLEMEN:**

We have the honor to present to you the report of the Board of Supervisors.

Through the generous interest of our friends we have been able to continue the activities of our Board for the past year, and it is with great pleasure that we take this opportunity to express our gratitude and appreciation to our benefactors for their unfailing support and encouragement.

Our Auxiliary Societies have given us, as in former years, most valuable assistance.

The Orthopaedic Guild has supported three Free Beds and given linen and clothing for two girls' wards.

The Orthopaedic Hospital Sewing Society has provided all the other linen used in the Hospital and made a donation of \$100.00 for braces.

The Junior Guild has supported a Visiting Nurse, has given a Free Bed and supplied the necessary clothing for the three babies' and little children's wards.

The detailed reports of these societies will be found in our Year Book and explain more fully how much we owe to their help.

The Committee of the Churchwoman's League for Patriotic Service under their Chairman, Mrs. Charles M. Brooks, has made the surgical dressings used in the Dispensary.

The Orthopaedic Hospital Red Cross Unit, Mrs. C. C. Overton, Chairman, has made all the surgical dressings for the Hospital.

We owe a deep debt of gratitude to those ladies who have relieved our institution of such a heavy burden of expense and hard work. Their interest and zeal cannot be too highly appreciated, nor can our thanks be too strongly expressed. Surgical dressings had become one of our difficult problems, now happily solved.

To Miss Adelaide White's Knitting Circle we are indebted for a wonderful gift of sweaters and mufflers for the use of patients while on the outdoor loggias. This very thoughtful donation was most welcome and has added greatly to the comfort and enjoyment of the patients.

We are grateful to report the continued support of our Visiting Nurses, that extremely important branch of our work. Mrs. Alexander, Mrs. Brewster, Mrs. Whitelaw Reid, Mrs. Henry White, Mrs. Frederick Vanderbilt, Mrs. A. Murray Young, and the Junior Guild, each, most generously, supported one of these nurses.

Miss Caroline White very kindly continued her donation in support of a masseuse.

Our school continued its work with the children in such a manner that we can boast again of patients returning to the classes they had left and even entering a grade ahead. We trust that our friends, who have lent us their assistance in this good work in the past, will continue to give us their support and encouragement.

All the Hospital had a delightful Christmas. The Dispensary was beautifully decorated, and there were beautiful trees in the wards. Christmas stockings for all the children were given by the Orthopaedic Guild, the Junior Guild and the Churchwomen's League for Patriotic Service. Mrs. Henry White gave a present to each patient and a book to each nurse. Mrs. Young and Mrs. Brewster gave the Christmas trees for the wards, a present to each patient and presents to one hundred Dispensary patients.

Mrs. Tilford and Mrs. Pyne gave presents to two hundred Dispensary patients, Mrs. Warren contributed towards the Christmas turkeys, and Miss Frelinghuysen and Mrs. Pyne gave ice cream and cake for the Christmas dinner.

Mrs. Dickey gave the holly for the decorations, Mrs. Reid, Mrs. Robinson, Mrs. Talmage and Miss Hamilton gave the maids' presents. The Nurses' party was given by Mrs. Choate, Mrs. Murray and Miss Hamilton.

A large number of Christmas baskets of dinners were distributed among families of patients and many presents were given by friends interested in the Hospital, although not directly connected with it.

We look back on the past year with great happiness and a deep sense of gratitude for the privilege we have enjoyed of being allowed to share in the great work of restoring to many the health and usefulness which seemed to have been denied them.

We trust the new year may bring us equal opportunity, and pray that more and more, as time goes on, men, women and children in greater numbers may issue from our doors capable of taking their places in the world without the handicap which had been theirs.

ELIZABETH STEWART HAMILTON,  
*Secretary.*

## REPORT OF THE SURGEON-IN-CHIEF

*To The Board of Trustees of The New York Orthopaedic Dispensary and Hospital,*

GENTLEMEN:

The total number of cases treated in the institution during the year ending December 31, 1922, was 19,288. Of this number 8,912 were new cases, and the remainder were those continued under treatment at the beginning of the year. This is an increase in new patients of 301 and in old patients of 587, a total of 888, an increase not so great as that occurring in the previous year, but a very substantial one.

Of this number 1,252 were suffering from joint tuberculosis; 6,210 from deformities of the feet; 1,072 from non-tuberculous deformities of the spine, 73 of which were fractures.

It is interesting to note that in the past we almost never saw any cases of fracture of the spine, and when we did, we did not know what to do with them. In recent years our methods of diagnosis have improved so that we find these cases, and our operative work has improved so that we definitely cure them. There were also 36 cases of developmental deformities of the spine. Many of these were operated and completely relieved by operation.

There were 1,978 cases of paralytic deformities, and 7,790 were suffering from a great variety of deforming diseases, the details of which appear in Table I.

The results of treatment are shown in Table II, and it appears there that 940 cases were discharged cured, and 4,402 were discharged relieved, making a total of 5,342 persons sufficiently improved to require no further treatment, and they were discharged; 15 were discharged incurable, 65 for neglect; 57 died; 3,729 had no treatment after their first visit, and the remainder, 10,082, were carried forward under treatment next year.

The patients who do not return after their first visit, in some instances, represent a waste of effort; in many others, they come for diagnosis only; in still others, they are referred to other clinics, having conditions which we are unprepared to treat.

Table III gives in some detail the work in the treatment of these patients. The total number of visits by patients to the Dispensary was 88,205. The total number of visits by nurses to patients at their homes was 26,093, making a grand total of 114,298 visits. This is an increase over 1921 of 2,949 visits, making an average number of visits per day for the year of 379. The 7,087 patients who were visited by nurses at their homes, give you some idea of the wide reach of the service of the institution outside its walls. Many of these patients are really hospital patients, and are having, in a measure at their homes, hospital care which without the nurses it would be necessary to get in the hospital, and thus their stay in the hospital become much prolonged.

Table IV gives the detail of the work done in the manufacture of braces in the machine shop. The number of instruments made was 4,268, and the number repaired was 6,579. Here is a distinct falling off, and this appears each year during the past few years because, as our surgical work has become perfected, we are eliminating the necessity of wearing braces in many cases, and in all diminishing the length of time they are worn, so that while the total cost of our institution may be increasing, in this matter it is growing less as pertains to the treatment of each individual case.

CITY HOSPITAL.—The number of patients in the city hospital on January 1st, 1922, was 87. During the year 879 were admitted and 893 discharged; 5 died, and 68 were continued on January 1st, 1923. The average number of patients in the wards each day during the year was 85, and the average duration of the stay of each patient was 32 days. There were 214 patients waiting for admission to the wards at the end of the year. There is, of necessity, very little change in normal conditions in the number of patients treated in the wards, as the bed capacity is absolutely limited. The duration of the stay may possibly be

diminished somewhat in the future, with a larger corps of visiting nurses, but it cannot be so to any great extent, as in many instances the home conditions are such that patients who have to be in bed cannot be kept in their homes, even with the aid of the constant nursing attendance. The total number of days of pay care is 11,136, and the total number of days of free care is 19,852, a total of 30,988 patient days.

Table V gives a detailed study of the number of operations performed and the number of patients operated, the former 1,382, and the latter 916.

COUNTRY BRANCH.—The number of patients in this hospital on January 1, 1922, was 132; 81 were admitted, 75 discharged and 2 died, leaving 136 at the end of the year.

The duration of the stay of each patient in this hospital has gradually diminished, as also has the age of the patient upon admission diminished. For instance, the average age of the first hundred patients was 11.7 years, and the average age of the last hundred, 7.8 years. The average duration of the stay of the first hundred was  $3\frac{1}{8}$  years, and the average duration of the stay of the last hundred was  $2\frac{1}{10}$  years. This change has been due to two facts: First, that we get these children earlier in disease, when they are more curable, and, second, that our surgical methods are more quickly effective. The number of days of free care here was 24,355, and the number of days of part pay care 24,324, making a total of 48,679.

It is a matter of great interest and satisfaction that as soon as the building can be erected, we will be able in this hospital to meet the needs of adolescents suffering from joint tuberculosis. This disease, which is very frequent at this age, is perfectly curable under such conditions as they will have there, and the need for beds for such cases is very urgent. While a very large percentage of cases of joint tuberculosis develops in early life, there are a very considerable number who are adolescent when it develops, and up to the present time there has been no provision made for the proper treatment of these cases, and in consequence many of them have not gotten well.

The department for the study of end results is one of the most valuable parts of our work, and up to the end of this year, the end result in 1,490 cases has been studied. These were patients who had been treated during the period of twenty-five years previous. The amount of work involved in this study is enormous and slow, and it will take much time to realize for ourselves the findings in this department, and to publish them in such form that they may be suggestive to other workers in this department of surgery. As this department becomes a more established routine, the detailed work in it will not be allowed to accumulate, so that as the years go by it will become a very much more valuable department in checking up our surgical methods.

As our knowledge of the diseases and deformities that we treat increases, the surgical methods change and the necessity for better work increases, this inevitably forces upon the institution a larger outlay in annual expenses. It would seem, however, in the long run, to be wise economy, as anything which shortens the duration of disease.

There are hundreds and hundreds of people now who receive complete permanent cures in your hospital who ten or fifteen years ago were considered incurable. Indeed we are constantly operating successfully upon people who, even two years ago, had never had their condition diagnosed, much less successfully treated. This kind of development is stimulating to the workers, not only those connected with the technical detail of the work, but I hope may be equally stimulating to those of you who are concerned with the more indirect burden of the work, though no less important. Because, as I have said to you many times, the relation of the two Boards to this institution's life and future usefulness is of very vital importance, and the stimulation that is given those of us who work in it day by day by your enthusiasm and devotion, will be the measure in the long view of our contribution to the needs of the sick.

The educational work in the institution continues to be of very great importance. The students of Columbia University are studying here all during the year in small sections, and many

surgeons from various parts of this and other countries have attended our clinics for greater or shorter periods of time during the past year. This gives you some idea of the wide interest the surgical profession has in our work.

With our city hospital and dispensary and our soon to be completed country branch, we lack but one thing, namely, a private pavilion, to have the institution adequately organized and equipped to meet the need of the cripple from every class of society, and it does not seem fair any longer to deprive those able to pay of the benefits of such an institution as ours, especially so as the demand they are making upon us is increasing year by year. This feature added to our work would not only render a very valuable service to the sick, but would bring to bear a very stimulating effect upon the whole institution's life.

Respectfully submitted,

RUSSELL A. HIBBS,  
*Surgeon-in-Chief.*

TABLE No. I

*Summary of New and Continued Cases, January 1, 1922, to December 31, 1922*

## REPORT OF THE SUPERINTENDENT

*To The Board of Trustees of The New York Orthopaedic Dispensary and Hospital,*

GENTLEMEN:

The Annual Report of the Superintendent for the Fifty-fifth Year Book of the New York Orthopaedic Dispensary and Hospital, covering the fiscal year ending December 31, 1922, is herewith presented.

The total running expenses of the Dispensary and Hospital for the year were \$223,525.95, or a decrease of \$609.87 from those of the previous year. The daily per capita cost is somewhat lower than that of last year, or \$4.09 against \$4.28 in 1921. The cost per treatment in the Dispensary was 86 cents, and the cost per visit of the nurses out in the field was 64 cents.

The entire number of patients who received treatment during this period was 19,288; there were 88,205 visits to the Dispensary, and 26,093 visits made by the nurses to patients in their homes. The number of patient days in the Hospital was 30,988; of this number 19,852 days were free, and the remainder, or 11,136, were paid care. The average length of stay of a patient in the Hospital was 32 days. A greater number of free cases have been treated this year than last, and throughout the year there has been an increased demand for free service on the wards.

I am not enumerating all of the important statistics of the year, as they will be found in the Tables, which have been carefully compiled and are of more than passing interest. Some idea may be gained of the services rendered in the special departments from the Tables demonstrating the activities of the Brace Shop, the Laboratory, and the X-ray and Dental Departments. An increased number of x-rays and photographs have been taken this year, which is in part attributable to the fact that patients are being followed up by the End Result Department. The various

receipts and disbursements will be found in detail in the financial statement of the treasurer, which is appended hereto.

The City has this year greatly curtailed the extent of its assistance and cooperation, approving for admission to this Hospital so-called "emergency" orthopaedic cases only, and in very small numbers.

The past year has been a most active one throughout the entire institution, and the immense amount of work that has been accomplished in all of the departments would have been impossible without the unselfish devotion, the broad spirit of fairness, and the sympathetic understanding and loyalty found on all sides.

There has been but one epidemic during the year, a short one of measles, and we account ourselves most fortunate in this regard.

It is a constant source of gratification to know that all of the patients who are treated in the wards of this Hospital are shown an equal amount of consideration, and the same courtesy and kindness, and are afforded the same care and treatment, no matter what their social condition, or whether or not they are able to contribute anything toward the cost of their care to the Hospital. No definite ward rate is established, but a social service questionnaire is taken in the department of admissions, and an agreement reached between the Hospital and the patient, which is in keeping with his means and his responsibilities.

I regret to report the resignation last May through illness of our Supervisor of Nurses. She was a most efficient nurse and executive, a woman of high ideals, and intensely devoted to the patient and the nursing profession.

An agreement has been effected with the Columbia University whereby the students in corrective gymnastics of Teachers College are to receive instruction and practice work in this Dispensary, under the supervision of the Directress of that department here. Thus an opportunity of inestimable value is afforded to these young women for practical experience which mustulti-

mately result in a great service to them and to the communities in which they afterward serve.

At the beginning of the year 1923, the Board of Education will assign one teacher for the instruction of children of school age on our wards, and at the opening of the school year in September of next year, two additional teachers will be assigned to this work, thus making our quota complete.

I desire again to draw your attention this year to the various outstanding needs of the institution, namely:

- A Private Pavilion,
- A Teacher of Occupational Therapy,
- Additional Locker Space,
- An Admission Office,
- More Space for the Record Room and an End Result Office.

Those of you who have visited the Hospital during the past year have observed that our handicap for accommodations has forced us to sacrifice tradition by occupying the Board Room during the summer months for office purposes, and to use the Isolation Ward for history clerk and End Result Department offices, also for a work room for the Red Cross Unit. In previous reports I have emphasized the necessity of more adequate locker-rooms for the outside workers, and of additional office space for Admission Department and History Library.

Private patients have been cared for again this year in the quiet rooms, and, while this has served the purpose, the arrangements are unsatisfactory, and very insufficient. These rooms are also needed for the care of ward patients, who are often too ill to be placed in the wards with others. The need for a private pavilion is most urgent, not only for the care of private patients, but to provide the additional space previously referred to as well. I hope that the year 1923 will be epoch-marking in the history of the Hospital, in that the new Private Pavilion will become a definite realization.

Occupational Therapy has long since ceased to be an experiment, and has been well demonstrated in many prominent institutions in this and other countries, and it has been proved to be a most important factor in the convalescence of those patients

especially, who, as in orthopaedic cases, require a long period of hospital stay. It is of notable benefit to those repaining long enough in hospital for ward life to become a monotony. Nearly all orthopaedic patients are able to undergo the effort that may be involved, and this work would serve to bring new interest into their otherwise inactive days and stimulate them to more rapid recovery. It is such a valuable adjunct that I earnestly hope we may be able to inaugurate this service before next autumn.

Worthy of your attention are the lists of donations, subscriptions and gifts to the Hospital in material, which indicate the great number who have so generously demonstrated their interest in the success of our work and in the happiness and well-being of our patients. Friends of patients and other interested persons have thoughtfully contributed to the enjoyment of the patient with music, both vocal and instrumental, and in various other ways.

I desire to acknowledge my sincere appreciation of the valuable assistance which has been rendered to the Hospital by the Red Cross Unit in the making of surgical dressings for use in the operating-room and in the wards; and to the Churchwoman's League for Patriotic Service for the making of the Dispensary supplies.

My thanks are due, also, to the young women who have for various periods during the year volunteered their services in the children's wards and in the Dispensary. This has been a most acceptable type of assistance.

It is a pleasure to acknowledge again our appreciation of the helpful support and inspiration given us by the Boards, Committee and Guilds, throughout the year.

Respectfully submitted,

THEODORA S. ROOT,  
*Superintendent.*

## **ORTHOPAEDIC GUILD REPORT**

The annual report of the Orthopaedic Guild for the year 1922 is much the same as the report of the previous year. We have paid for three beds \$1,050 and in addition have provided the necessary articles for 20 beds. We have purchased a large amount of linen and clothing for our closets. Mrs. Alexander received from Mrs. Breitung's midnight dances \$250, which aided us greatly. Mrs. Overton has continued her excellent work in making surgical dressings for the hospital. She has made 79,981 the past year.

We close the year with a very substantial bank balance.

Respectfully submitted,

FLORENCE B. FLEMING,  
*Secretary.*

**GIFTS TO THE ORTHOPAEDIC GUILD  
DURING 1922**

**JANUARY**

Mrs. Luce.....	Chocolate and cocoa for 1 year for entire hospital
Miss Wells.....	2 bolts of ribbon

## REPORT OF THE ORTHOPAEDIC HOSPITAL SEWING SOCIETY

The Annual Report of the Orthopaedic Hospital Sewing Society for the year 1922 varies somewhat from the report of the previous year in that fewer articles were added to the supply and not so many were taken out for use.

Articles on hand, January 1st, 1922.....	2,542
Number of articles added during year.....	2,344
	_____
	4,886
Number of articles taken out for use.....	2,429
	_____
Leaving in linen closet, January 1st, 1923.....	2,457

During the year the Society funds were considerably augmented by the proceeds of a card party given at the Plaza Hotel in March for this purpose, and \$250.00 given through Mrs. Breitung by a Dancing Club whose profits are given to various charities.

Mrs. Clark as Chairman of the Working Committee is untiring in the execution of her duties and contributes in many ways to the success of this Society.

It is with deep regret we report the loss of two members, one through death and one through resignation.

Respectfully submitted,

KATHERINE M. LUCE,  
*Secretary.*

## **REPORT OF THE JUNIOR GUILD**

The Junior Guild of the New York Orthopaedic Hospital has continued its work in the wards and by the support of a District Nurse. In February 10,000 appeals for one dollar were sent out and from this source \$2,500 was received. In March a Bridge Party netted \$1,541. From this money \$250 was voted to the Endowment Fund, \$100 to the Hospital and \$700 to the Ice Cream and Potato Fund.

## REPORT OF THE SUPERINTENDENT OF THE COUNTRY BRANCH

*To The Trustees of the New York Orthopaedic  
Dispensary and Hospital,*

GENTLEMEN:

On January 1, 1922, there were one hundred and thirty-two patients in the Country Branch. During the year eighty-one patients were admitted, seventy-five discharged, two died: making a total of one hundred and thirty-six remaining in the hospital at the end of the year.

The per capita cost per diem was \$2.03. Of the total expenditures 48.3% was for salaries and wages, 21.3% for provisions, and 30.4% for other supplies and expenses.

Early in June more than a hundred former patients returned for a reunion. Needless to say, it was a happy day, more happy perhaps for the workers, who felt amply repaid for all their efforts by the sight of these boys and girls, cured and able to take their places in the world.

In July the night nurses, the housekeeping and allied departments moved to their new quarters in the North Wing. A new dining room for employees, an enlarged kitchen, a larger and fully equipped staff pantry, a housekeeper's office, an adequate school store-room, detention and isolation quarters, and better bathing facilities in the East and West Wings are among the many alterations and improvements made during the year. We wish to thank Mr. Goble and Mr. Martin for their splendid co-operation in making these changes. Through their kind thoughtfulness these major alterations were accomplished with practically no disturbance of the regular hospital routine.

The school has every grade from kindergarten to Junior High School. Seventy-eight per cent of the children attend school regularly, thus enabling them to keep up to grade while getting well.

The plans for the new hospital wing have been approved, and construction will be begun early in the spring. One of the "Quiet Rooms" has been endowed in perpetuity by Glenn Ford McKinney, in remembrance of his wife, Jean Webster McKinney, who was greatly interested in our institution during her lifetime.

Our good friends of former years have continued their generosity. We thank them, one and all,

Respectfully submitted.

STATIRA M. BRIDGMAN,  
*Superintendent.*

*President.*

# NEW YORK ORTHOPAEDIC DISPENSARY AND HOSPITAL

420 EAST 59TH STREET

---

*Open from 1 to 3 P. M. Daily (Sundays and Legal Holidays Excepted)  
for the Reception and Treatment of Patients*

---

**OBJECTS OF THE INSTITUTION.**—"To furnish treatment to the poor with special reference to the Diseases and Deformities of the Spine and the Hip Joints and other of the more serious diseases of the bones and joints requiring surgical and mechanical treatment, and for giving instruction in the same." All cases of deformity, besides those mentioned, including Club Foot, Lateral Curvature of the Spine, Infantile Paralysis, Bow-Legs, etc., are received and treated.

**RULES GOVERNING THE ADMISSION OF PATIENTS TO THE DISPENSARY DEPARTMENT.**—Professional services are rendered gratuitously. Those who can afford to do so are expected to reimburse the Institution for the actual cost of apparatus. Payment for apparatus is received in installments, if required. Apparatus, however, is never sold to patients or others—the Institution reserving the right to remove the apparatus and discharge any patient not complying with the directions of the Surgeons. Apparatus will not be supplied in any case that does not come under the immediate care of the Institution.

**RULES GOVERNING THE ADMISSION OF PATIENTS TO THE HOSPITAL DEPARTMENT.**—Any suitable Orthopaedic case may be admitted. Application for admission may be made at the Hospital during the regular Dispensary hours.

**RULES GOVERNING THE ADMISSION OF PATIENTS TO THE COUNTRY BRANCH AND INDUSTRIAL SCHOOL.**—Applications for admission to this Hospital are made through the City Hospital, and only patients who are under treatment at the City Hospital will be admitted to the Country Branch.

THE MEDICAL PROFESSION and the public generally are invited to visit the Institution.

THE INSTITUTION is supported by the contributions of the benevolent. Contributions, which are earnestly solicited, may be sent to the Treasurer.
